SUPPLEMENTARY INFORMATION: The following described public land has been examined and found suitable for direct sale under the authority of Section 203 of FLPMA, as amended, (43 U.S.C. 1713):

Sixth Principal Meridian

T. 56 N., R. 73 W.,
Sec. 8, lot 17.

The area described contains 4.15 acres in Campbell County, Wyoming according to the official plat of the survey of the said land, on file with the BLM.

The proposed direct sale is in conformance with the BLM Buffalo Resource Management Plan (RMP) approved on October 4, 1985. The parcel is identified for disposal in the RMP Record of Decision, pages 13 and 14 and Map 5. Additionally,

Maintenance Plan Change #20120720 was added to comply with guidelines of the Department of the Interior and the BLM. The Maintenance Plan Change updated the land disposal map and included a text version of all legal descriptions of parcels identified for consideration for disposal. The BLM is offering the parcel by direct sale to resolve inadvertent unauthorized use and occupancy of the land pursuant to 43 CFR 2711.3-3(a)(5). The parcel is not needed for any other Federal purpose and has become difficult and uneconomical to manage. The regulations at 43 CFR 2711.3-3(a) permit the BLM to make direct sales of public lands when a competitive sale is not appropriate and the public interest would be best served by a direct sale.

On February 4, 2013, the BLM published a Notice of Realty Action (NORA) in the **Federal Register** (78 FR 7809) to segregate the parcel from appropriation under the public land laws, including the mining laws, for a period of 2 years from the date of publication. In addition to this NORA, notice of this sale will also be published once a week for 3 weeks in the *Gillette News Record*.

Conveyance of the identified public land will be subject to valid existing rights and encumbrances of record including, but not limited to, rights-of-way for roads and public utilities. All minerals will be reserved to the United States. Upon publication of this NORA and until completion of the sale, the BLM is no longer accepting land use applications affecting the identified public land, except applications for the amendment of previously-filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15.

The public land will not be offered for sale until February 18, 2014. The patent, if issued, will be subject to the following reservations:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945); and
 2. All minerals, together with the right to prospect for, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.
- The patent will be subject to all valid existing rights documented on the official public land records at the time of patent issuance.

Interested parties may submit written comments to the BLM, Buffalo Field Manager at the address above. Comments, including names and street addresses of respondents, will be

available for public review at the BLM, Buffalo Field Office during regular business hours. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Any comments will be reviewed by the Wyoming State Director who may sustain, vacate, or modify this realty action and issue a final determination. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

Authority: 43 CFR part 2711.

Associate State Director.

Record of Decision for the General Management Plan/Wilderness Study, Fort Pulaski National Monument, Georgia**AGENCY:** National Park Service, Interior.**ACTION:** Notice of availability.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service (NPS) announces the availability of the Record of Decision (ROD) for the General Management Plan/Wilderness Study (GMP/WS) for Fort Pulaski National Monument (national monument). On September 30, 2013, the Regional Director, Southeast Region, approved the ROD for the project.

FOR FURTHER INFORMATION CONTACT: Superintendent Melissa Memory, Fort Pulaski National Monument, Box 30757, U.S. Hwy 80 East Savannah GA 31410-0757; telephone (912) 786-5787.

SUPPLEMENTARY INFORMATION: The NPS evaluated three alternatives for managing use and development of the national monument in the GMP/WS/FEIS, Alternative A—no action Alternative, and two action Alternatives. The preferred alternative (Alternative B) from the GMP/WS/FEIS

is the alternative selected for implementation. Alternative B emphasizes to a high degree the restoration, preservation, and interpretation of historic landscapes and viewsheds of the site (by selected removal of vegetation) for the purpose of providing visitors a greater understanding of the siege and reduction of Fort Pulaski in 1862. The visitor center parking lot will be removed and the site returned to the approximate landscape condition that existed during the principal period of significance (April 1862). The visitor center parking lot will be relocated to a site near the visitor center but outside the viewshed from the top of the fort. The relocated parking lot will be just as near to the visitor center and just as accessible as the current one. The national monument proposes to construct a visitor center annex designed for park visitors, school groups, and staff. This structure will be designed to be technologically current and environmentally friendly and sustainable. In addition to having telecommunications network capabilities, it will provide connections for computers, technical, and audio/visual equipment. This, in addition to the space itself, will make the building ideal for both educational and interpretive programs, lectures, public presentations, staff meetings, staff training, and video conferencing. As part of the general management plan process, the National Park Service conducted a wilderness eligibility assessment to determine whether any lands at Fort Pulaski National Monument are eligible for inclusion in the national wilderness preservation system. This assessment identified approximately 4,500 acres of eligible land within the monument boundary. Under the preferred alternative, all lands identified as eligible in the wilderness eligibility assessment are proposed for designation as wilderness, except for those lands within 100 feet of the edge of the right-of-way of U.S. Highway 80. If finalized and approved by Congress, this proposal will result in approximately 4,500 acres of salt marsh receiving permanent protection as wilderness.

The selected action will provide a comprehensive monument-wide approach to resource and visitor use management. Specific management zones detailing acceptable resource conditions, visitor experience, use levels, appropriate activities and development will be applied to monument lands consistent with this concept. The selected action will

continue most current cultural and natural resource management and preservation activities as well as visitor programs and opportunities. The GMP will guide the management of the monument over the next 20+ years.

The responsible official for this FEIS/GMP is the Regional Director, NPS Southeast Region, 100 Alabama Street SW., 1924 Building, Atlanta, Georgia 30303.

Dated: November 18, 2013.

Sherri L. Fields,

Deputy Regional Director, Southeast Region.
