NUCLEAR REGULATORY COMMISSION

[Docket No. 40-2259]

Notice of Request to Terminate Source Material, License SUA-1524, for the Green Mountain Ion-Exchange Site in Fremont County, WY and Opportunity to Provide Comments and to Request a Hearing

I. Introduction

The U. S. Nuclear Regulatory Commission (NRC) has received, by letter dated October 24, 2002, a final status survey (completion) report for the decommissioned Green Mountain Ion-Exchange (GMIX) site near Jeffrey City, Wyoming, and a request to terminate the U.S. Energy Corporation (USEC) license SUA-1524 for the site.

The GMIX site is located in the Crooks Gap Mining District in Fremont County. The facility consisted of two buildings and two settling ponds and separated uranium from mine water by the ion-exchange process. The facility ceased operation in 1987. When USEC bought the property in 1988, the NRC granted a "possession only" source material license. The facility remained in stand-by status and USEC submitted a decommissioning plan in 1993 that was approved, after modifications, in 1996. USEC requested a delay in initiation of decommissioning that was granted September 20, 1999. Building demolition and soil removal was accomplished in 2001.

The NRC staff has initiated review of the completion report and indicated, by electronic mail on November 25, 2002, that the submittal was incomplete. The licensee provided additional data by letter dated November 26, 2002, that completes the report. The NRC staff is now preparing a technical evaluation report for the decommissioning activities and will determine if all the applicable regulations have been met for license termination. Letters have been received from the site land managers, Bureau of Land Management (November 27, 2002) and the Wyoming Department of Environmental Quality, Land Quality Division (December 4, 2002) that indicate no objection to termination of the USEC license.

II. Opportunity To Provide Comments

The NRC is providing notice to individuals in the vicinity of the facility that the NRC is in receipt of this request, and will accept comments concerning this action within 30 days of the publication of this notice in the **Federal Register**. The comments may be provided to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room T-6 D59, Two White Flint North, 11545 Rockville Pike, Rockville, MD 20852, from 7:30 a.m. until 4:15 p.m. on Federal workdays.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-369 and 50-370]

Duke Energy Corporation, McGuire Nuclear Station, Units 1 and 2; Notice of Availability of the Final Supplement 8 to the Generic Environmental Impact Statement Regarding License Renewal for the McGuire Nuclear Station, Units 1 and 2

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has published a final plant-specific supplement to the Generic Environmental Impact Statement (GEIS), NUREG-1437, regarding the renewal of operating licenses NPF-9 and NPF-17 for the McGuire Nuclear Station, Units 1 and 2, for an additional 20 years of operation. The McGuire Nuclear Station units are located in Mecklenburg County, North Carolina. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative methods of power generation.

As discussed in Section 9.3 of this final Supplement 8 to the GEIS, the staff

recommends that the Commission determine that the adverse environmental impacts of license renewal for McGuire Nuclear Station, Units 1 and 2, are not so great that preserving the option of license renewal for energy planning decision makers would be unreasonable. This recommendation is based on (1) The analysis and findings in the GEIS; (2) the Environmental Report submitted by Duke; (3) consultation with Federal, State, and local agencies; (4) the staff's own independent review; and (5) the staff's consideration of public comments.

The final Supplement 8 to the GEIS is available electronically for public inspection in the NRC Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov> (the Public Electronic Reading Room). Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the PDR reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.
