

information requested. *See* 44 U.S.C. 3501.

Below is a brief summary of the currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: Control of Alcohol and Drug Use in Railroad Operations.

OMB Control Number: 2130-0526.

Abstract: The information collection requirements contained in pre-employment and “for cause” testing regulations are intended to ensure a sense of fairness and accuracy for railroads and their employees. The principal information—evidence of unauthorized alcohol or drug use—is used to prevent accidents by screening personnel who perform safety-sensitive service. FRA uses the information to

measure the level of compliance with regulations governing the use of alcohol or controlled substances. Elimination of this problem is necessary to prevent accidents, injuries, and fatalities of the nature already experienced and further reduce the risk of a truly catastrophic accident.

Form Number(s): FRA F 6180.73, 6180.74, 6180.94A, 61880.94B.
Affected Public: Businesses.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2007-28480]

Commercial Driver's License (CDL) Standards: Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final dispositions.

SUMMARY: FMCSA has denied National Agricultural Aviation Association's (NAAA) application for exemption, and, in a separate action, has denied U.S. Custom Harvesters, Inc.'s (USCHI) suggestion for a pilot program. Each request asked FMCSA to permit the transportation of hazardous materials (HM) by drivers who have not obtained an HM endorsement for their commercial driver's license (CDL) as required by current regulations. FMCSA reviewed NAAA's application for exemption and the public comments received on it, and also reviewed USCHI's suggestion for a pilot program, and rendered each decision upon its merits.

DATES: The NAAA application was denied on August 7, 2009, and the USCHI suggestion for a pilot program was denied on August 11, 2009.

Dockets: For access to the dockets to read background documents or comments received, go to <http://www.regulations.gov> at any time, or to Room W12-140, DOT Building, 1200 New Jersey Ave., SE., Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas Yager, Chief, Driver and Carrier Operations Division, Office of Bus and Truck Standards and Operations; Telephone 202-366-4325, E-mail: MCPSD@dot.gov.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption from certain of its regulations for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent

such exemption." On July 5, 2007, FMCSA published in the **Federal Register** a notice of NAAA's application for exemption (72 FR 36748). The complete docket of the NAAA request, including public comments, can be examined at Docket No. FMCSA-2007-28480 (*see* "Dockets" above). A suggestion for a pilot program, such as that filed by USCHI, is only published for public comment if the FMCSA Administrator accepts the proposal (49 CFR 381.405(b)).

FMCSA Decision

NAAA failed to demonstrate alternatives its members would employ to ensure that their commercial motor vehicle (CMV) drivers operating under the requested exemption would achieve a level of safety equivalent to, or greater than, the level of safety that would be obtained if they had to comply with the regulations, as required by 49 CFR 381.305(c)(5). USCHI's proposed pilot program, while potentially collecting useful data for evaluating alternatives to the Federal Motor Carrier Safety Regulations (FMCSRs), failed to recommend alternative safety measures that would ensure that the safety of its CMV pilot drivers would be equivalent to, or greater than, the level of safety of CMV drivers operating without the pilot exemptions in place, as required by 49 CFR 381.410(c)(8).

NAAA

NAAA is a trade association representing those engaged in the commercial application of fertilizer and other agricultural products by airplane. It states that the requested exemption would relieve the difficulty its members experience in finding CMV drivers qualified to transport aircraft fuel, a hazardous material. The exemption would allow NAAA drivers to operate under the limited exception from the CDL rules provided for those engaged in certain "farm-related service industries" (49 CFR 383.3(f)). States may allow a driver so engaged to operate under a "restricted CDL" without successfully completing the CDL knowledge and skills tests required by 49 CFR 393.135. The operations of NAAA members appear to satisfy several of the prerequisites for this restricted CDL. However, States are required by 49 CFR 393.3(f)(3)(v) to restrict the HM operations conducted by those granted restricted CDLs to the transport of solid fertilizers and limited quantities of diesel fuel or liquid fertilizer. NAAA wants FMCSA, by exemption, to allow its drivers holding this restricted CDL to transport the HM fuels used to power aircraft engines.
