POLICY JUSTIFICATION

Morocco—Ground Command and Control

The Government of Morocco has requested to buy six (6) Multifunctional Information Distribution System Joint Tactical Radio Systems (MIDS—JTRS). Also included are: KY—100M Narrowband/Wideband Terminals; KIV—78 and KIV—77 Cryptographic Appliques; AN/PYQ—10 Simple Key Loader (SKL); additional secure communications, cryptographic devices, and precision navigation equipment; unclassified and classified software, software support and support equipment; spare and repair parts; support and test equipment; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering; technical and logistics support services; and other related elements of logistical and program support. The estimated total cost is \$141.1 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO Ally that continues to be an important force for political stability and economic progress in North Africa.

The proposed sale will improve Morocco's capability to meet current and future threats by providing timely Intelligence, Surveillance, and Reconnaissance (ISR) and target acquisition for its security and defense. The capability is a deterrent to regional threats and to strengthen its self-defense. Morocco has demonstrated a commitment to modernizing its military and will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be General Atomic Aeronautical Systems Inc., San Diego, CA; Lockheed Martin Inc., Bethesda, MD; Raytheon Inc., Waltham, MA; and Leonardo SpA, Rome, Italy. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Morocco.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22–12

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. Multifunctional Information Distribution System—Joint Tactical Radio System (MIDS—JTRS) is an advanced Link-16 command, control, communications, and intelligence (C3I) system incorporating high capacity, jam-resistant, digital communication links for exchange of near real-time tactical information, including both data and voice, among air, ground, and sea elements.

2. The KY—100M is a lightweight terminal for secure voice and data communications. The KY—100M provides wideband/narrowband half-duplex communication. Operating in tactical ground, marine and airborne applications, the KY—100M enables secure communication with a broad range of radio and satellite equipment.

3. The KIV—78 and KIV—77 are crypto appliques for Mode 5 Identification Friend or Foe equipment. It can be loaded with Mode 5 classified elements.

4. The AN/APQ—10C Simple Key Loader is a handheld fill device for securely receiving, storing, and transferring data between cryptographic and communications equipment.

5. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

6. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

7. A determination has been made that Morocco can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

8. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Morocco.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Prevention Workforce Evaluation; DoD-wide Data Collection and Analysis for the Department of Defense Qualitative and Quantitative Data Collection in Support of the Independent Review Commission on Sexual Assault Recommendations; OMB Control Number 0704–0644.

Type of request: Revision.

Number of respondents: 12,324.

Responses per respondent: 1.

Annual responses: 12,324.

Average burden per response: 1 hour.

Annual Burden Hours: 12,324.

Needs and uses: The Independent Review Commission on Sexual Assault in the Military recommended that the Department establish a prevention workforce model (Recommendation 2.2a) and an integrated primary prevention workforce (IPPW, Recommendation 2.2c), and this recommendation was endorsed by Secretary of Defense as a priority for DoD. To that end, the DoD is planning to hire a new Integrated Primary Prevention Workforce (IPPW) of approximately 2,000 personnel. Following the approval of the model,
