Operation Safe Commerce Cooperative Agreement Program; Request for Application and Establishing the Closing Date for Receipt of Applications Under the Operation Safe Commerce Cooperative Agreement Program

AGENCY: Transportation Security Administration, Department of Transportation.

ACTION: Notice inviting applications for the Operation Safe Commerce Cooperative Agreement Program

SUMMARY: The Transportation Security Administration working in conjunction with an interagency Executive Steering Committee for Operation Safe Commerce (OSC) requests applications for the OSC Cooperative Agreement Program to fund business drive initiatives to enhance security for the movement of cargo through the supply chain. The goal of OSC is to explore business processes and technology prototypes that protect commercial shipments from threat of terrorist attack, illegal immigration, and contraband while minimizing the economic impact upon the transportation system. The Ports of Los Angeles, Long Beach, Seattle, Tacoma, and the Port Authority of New York and New Jersey are invited to submit proposals for funding consideration under this initiative. Persons and entities representing components of the supply chain may seek funding through these ports. The ports are encouraged to maximize their eligibility for funding by including representatives from all components of the supply chain, including major and minor load centers and feeder locations, their overseas customers and port partners, and the shipping lines serving these locations.

Authority for this program is contained in the fiscal year 2002 Supplemental Appropriations Act for Further Recovery From and Response to Terrorist Attacks on the United States, Pub. L. 107–206, 116 Stat. 820.

DATES: The program announcement and application forms for the Operation Safe Commerce Cooperative Agreement Program are expected to be available on or about January 31, 2003. Applications must be received on or before 4 p.m. e.s.t., Marcy 20, 2003.

In addition, the OSC Executive Steering Committee and the Transportation Security Administration announces a non-funded federal program under OSC. This non-funded OSC Associates program seeks to capture lessons learned from private and public efforts to secure the supply chain. This program will be open to organizations that accept certain minimal requirements to be set forth by the ESC. In return, the ESC and TSA will review their efforts and, if appropriate, will include them in the final report on OSC.

SUPPLEMENTARY INFORMATION:

Background

Title VI of the North American Free Trade Agreement Implementation Act (the Act), Pub. L. 103-182, 107 Stat. 2057, 2170 (December 8, 1993), contains provisions pertaining to Customs Modernization (107 Stat. 2170). Subtitle B of title VI establishes the National Customs Automation Program (NCAP), an automated and electronic system for the processing of commercial importations. Section 631 of the Act creates sections 411 through 414 of the Tariff Act of 1930 (19 U.S.C. 1411 through 1414), as amended, which define and list the existing and planned components of the NCAP (19 U.S.C. 1411), establish program goals (19 U.S.C. 1412), provide for the implementation and evaluation of the program (19 U.S.C. 1413), and provide for the remote location filing of entries (19 U.S.C. 1414).

Requirements for conducting an approved test program or procedure designed to evaluate planned components of the NCAP are set forth in

§ 101.9 of the Customs Regulations (19 CFR 101.9). These regulations, in part, enable the Commissioner of Customs to impose requirements different from those specified in the Customs Regulations, provided that the different requirements do not affect the collection of revenue, the public health and safety, or law enforcement. This test is established pursuant to that regulatory provision.

I. Description of Test Program

Air Cargo Manifest

Section 122.42(c) of the Customs Regulations (19 CFR 122.42(c)) requires that the commander of an aircraft arriving in the United States from a foreign area, or his agent, must deliver upon arrival any required forms to the Customs officer at the place of entry. (Among these forms are the general declaration (§ 122.43), crew baggage declaration (§ 122.44), crew list (§ 122.45), stores list (§ 122.47), air cargo manifest (§ 122.48), and the passenger and crew manifests (§ 122.49a).) Section 122.48 of the Customs Regulations (19 CFR 122.48) provides that an air cargo manifest is required for all cargo on board a flight arriving in the United States from a foreign area, except for cargo arriving from and departing for a foreign country on the same through flight. Section 122.48(c), Customs Regulations (19 CFR 122.48(c)), provides that the air cargo manifest must be on Customs Form (CF) 7509, that it must contain all required information, and that a more complete description of the cargo shipped under air waybills may be provided by attaching to the cargo manifest a copy of each air waybill and, if a consolidated shipment, copies of the house air waybills.

Electronic Submission of the Air Waybill Information

In an attempt to facilitate cargo processing and release, Customs has accepted, on a voluntary basis, the electronic transmission of air waybill information from qualified air carriers, through the Air Automated Manifest System (AAMS), either before or upon arrival of the aircraft in the United States. However, air carriers submitting air waybill information in this way are still required to submit the paper documents, even though the data is transmitted electronically. Now, to further facilitate the control, processing, and release of air cargo, Customs, via this test program, will relieve AAMS air carriers participating in the test from the requirement of submitting a copy of the master air waybill as an attachment to
