SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2021-0153 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website*: Go to <https://www.regulations.gov> and search for Docket ID NRC-2021-0153.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. DG-1392, "Site Characterization Investigations for Nuclear Power Plants" is available in ADAMS under Accession No. ML21194A176.

- *Attention*: The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking Website (<https://www.regulations.gov>). Please include Docket ID NRC-2021-0153 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include

identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Additional Information

The NRC is issuing for public comment a DG in the NRC's "Regulatory Guide" series. This series was developed to describe methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, to explain techniques that the staff uses in evaluating specific issues or postulated events, and to describe information that the staff needs in its review of applications for permits and licenses.

The DG, entitled, "Site Characterization Investigations for Nuclear Power Plants" is proposed Revision 3 of RG 1.132, which is temporarily identified by its task number, DG-1392. It proposes guidance on field investigations for determining the geologic, geotechnical, geophysical, and hydrogeologic characteristics of a prospective site for engineering analysis and design of nuclear power plants.

The staff is also issuing for public comment a draft regulatory analysis for revision of RG 1.132 (ADAMS Accession No. ML21194A177). The staff develops a regulatory analysis to assess the value of issuing or revising a regulatory guide as well as alternative courses of action.

III. Backfitting, Forward Fitting, and Issue Finality

Issuance of DG-1392, if finalized, would not constitute backfitting as that term is defined in section 50.109 of title 10 of the *Code of Federal Regulations* (10 CFR), "Backfitting," and as described in NRC Management Directive (MD) 8.4, "Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests"; constitute forward fitting as that term is defined and described in MD 8.4; or affect issue finality of any approval issued under 10 CFR part 52, "Licenses, Certificates, and Approvals for Nuclear Power Plants." As explained in DG-1392, applicants and licensees are not required to comply with the positions set forth in DG-1392.

Dated: August 12, 2021.

For the Nuclear Regulatory Commission.

Ronaldo V. Jenkins,

Acting Chief, Regulatory Guidance and Programs Management Branch, Division of Engineering, Office of Nuclear Regulatory Research.

POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service™.

ACTION: Notice of modified systems of records.

SUMMARY: The United States Postal Service® (Postal Service) is proposing to modify several General Privacy Act Systems of Records (SOR) to support improved communication efforts within USPS Human Resources employee applications or systems, to sponsor and

support a voluntary wellness challenge and program initiative for employees to promote fitness and health, and to reflect recent organizational changes.

DATES: These revisions will become effective without further notice on September 17, 2021, unless, in response to comments received on or before that date result in a contrary determination.

ADDRESSES: Comments may be submitted via email to the Privacy and Records Management Office, United States Postal Service Headquarters (privacy@usps.gov). To facilitate public inspection, arrangements to view copies of any written comments received will be made upon request.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, 202–268–3069 or privacy@usps.gov.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service is proposing revisions to existing systems of records (SOR) to facilitate improved employee communication efforts, to support a voluntary wellness challenge and program initiative for employees, and to update system manager titles consistent with the current organizational structure of the Postal Service.

I. Background

The Postal Service utilizes a modern integrated Human Resources technology system to help optimize, manage, and develop the Postal Service workforce to meet identified business needs. It contains modules for learning, succession planning, performance evaluation, compensation, recruiting/on-boarding and analytical reporting.

The Postal Service is also developing a voluntary wellness initiative to assist participating employees in achieving their individual wellness goals. The voluntary wellness challenges and programs initiative is designed to provide motivation and enhanced engagement to participating employees that have expressed interest in improving their health or achieving wellness goals through the use of individual or team challenges and related wellness programs.

The wellness initiative will track and report challenge activities and summarize outcomes during each program cycle period using anonymous designations for individual employees. For example, participant alias names

will be used in all wellness program dashboard participant input and activity reporting to protect the privacy of individuals. In addition, at the end of each program cycle, top tier final results and/or random prize winners (when applicable) will be reported only after obtaining individual employee permission.

II. Rationale for Changes to USPS Privacy Act Systems of Records

The Postal Service is proposing modifications to USPS SOR 100.000, General Personnel Records, USPS SOR 100.100, Recruiting, Examining, and Placement Records, USPS SOR 100.300, Employee Development and Training Records and USPS SOR 100.400, Personnel Compensation and Payroll Records to facilitate improved communication to employees. Human Resources requires the need to capture and store an employee's personal email and phone number for both pre-hire and after the effective date of the appointment in order to:

Communicate relevant Human Resource information to employees.

Communicate with employees about human resource related topics, employment, and gather feedback through surveys. Communicate with employees regarding training assignments and requirements both prior to and after effective date of employment or placement.

New purposes are also being added to SOR 100.300, Employee Development and Training Records to reflect enhanced capabilities and functionality for the USPS career learning and development portal. This portal provides a collaborative employee forum that promotes information sharing and cross-functional participation. Opportunities are also provided for sharpening professional skills and abilities, along with personal development.

New purposes are being added to SOR 100.400, Personnel Compensation and Payroll Records, in support of both improved communication efforts and the Voluntary Wellness Challenge and Program initiative described above. In addition, Categories of Records, Source Record Categories and Retention time for records related to the Wellness Challenge and Program participation are being modified to support the initiative and align with two new purposes for program administration, along with tracking activities and reporting summary results.

Finally, the Postal Service is proposing administrative changes for system managers within the four SORs
