

Inter-Market Competition

The Exchange operates in a highly competitive market in which market participants can readily choose to send their orders to other exchanges if they deem fee levels and incentives at those other exchanges to be more favorable. As noted above, the Exchange's market share is currently 6.87%.¹⁹ In such an environment, the Exchange must continually adjust its fees and rebates to remain competitive with other exchanges. Because competitors are free to modify their own fees and credits in response, and because market participants may readily adjust their own order routing practices, the Exchange does not believe its proposed fee change can impose any burden on inter-market competition.
