Pursuant to Section 812 of the 1990 Clean Air Act Amendments, EPA conducts periodic studies to assess benefits and costs of the EPA's regulatory actions under the Clean Air Act. The Council has provided advice on an EPA retrospective study published in 1997 and an EPA prospective study completed in 1999. EPA initiated a second prospective study to evaluate the costs and benefits of EPA Clean Air programs for years 1990-2020.

The Council HES met on December 15-16, 2009 to review the health-related chapters and associated appendices of the EPA's Second Section 812 Prospective Analysis of the Clean Air Act [Federal Register Notice dated November 27, 2009 (74 FR 62307-62308)]. SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by the registrants to voluntarily amend their registrations to delete uses in certain pesticide registrations containing the pesticides malathion, diquat dibromide, metam-potassium, and metam-sodium. The requests would terminate malathion use in or on animal premises and barns used for dairy and livestock. The requests would terminate diquat dibromide use in or on sorghum and soybean (seed crop only). The requests would terminate metam-sodium and metam-potassium soil fumigant uses (agricultural application) for certain products. The requests would not terminate the last malathion, diquat dibromide, metam-potassium, and metam-sodium products registered for

use in the United States. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw their requests within this period. Upon acceptance of these requests, any sale, distribution, or use of products listed in this notice will be permitted only if such sale, distribution, or use is consistent with the terms as described in the final order.

DATES: For malathion products (EPA Registration Nos. 4787-46 and 67760-40) and diquat dibromide products (EPA Registration No. 100-1061) comments must be received on or before March 12, 2010. SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected

by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns and suggest alternatives.
- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests to Amend Registrations to Delete Uses

This notice announces receipt by EPA of requests from several registrants requesting that EPA amend product registrations as follows:

- In a letter dated December 17, 2009, Cheminova, A/S, and Cheminova, Inc.,

requested that EPA amend its malathion product registrations to delete certain uses which are identified in Table 1 of Unit III. Malathion is a broad-spectrum organophosphate insecticide.

2. In a letter dated November 10, 2009, Syngenta Crop Protection, Inc., requested that EPA amend its diquat dibromide pesticide product registrations to delete certain uses which are identified in Table 1 of Unit III. Diquat dibromide is a non-selective contact algicide, defoliant, desiccant and herbicide.

3. In a letter dated October 30, 2009, Buckman Laboratories requested that EPA amend its metam-sodium and metam-potassium pesticide product registrations to delete certain uses which are identified in Table 1 of Unit III. Metam-sodium and metam-potassium are broad-spectrum fumigants with fungicidal, bactericidal, algicidal, herbicidal, insecticidal, nematocidal, and antimicrobial properties.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of requests from registrants to delete

uses of malathion, diquat dibromide, metam-potassium, and metam-sodium product registrations. The affected products and the registrants making the requests are identified in Tables 1 and 2 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The malathion and diquat dibromide registrants have requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued amending the affected registrations.

The metam-potassium and metam-sodium registrant has not requested that EPA waive the 180-day comment period. EPA will provide a 180-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 180 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued amending the affected registrations.

Table 1 lists the products with pending requests for amendment of the pesticide registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request

For malathion products (EPA Registration Nos. 4787–46 and 67760–40) and diquat dibromide products (EPA Registration No. 100–1061) registrants who choose to withdraw a request for use deletion must submit the withdrawal in writing to Eric Miederhoff using the methods in **ADDRESSES**. The Agency will consider written withdrawal requests postmarked no later than March 12, 2010.

For metam-sodium and metam-potassium products (EPA Registration Nos. 1448–74, 1448–83, 1448–85, 1448–107, 1448–361, and 1448–362) registrants who choose to withdraw a request for use deletion must submit the withdrawal in writing to Eric Miederhoff using the methods in **ADDRESSES**. The Agency will consider written withdrawal requests postmarked no later than August 9, 2010.

This written withdrawal of the request for use deletion will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of the use deletion amendment and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to these requests for amendments to delete uses, the Agency proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1 in Unit III. The Agency proposes to authorize registrants to sell or distribute products under the previously approved labeling for a period of 12 months after approval of the revision, unless other restrictions have been imposed.

If the requests for voluntary use deletions are granted as discussed in this unit, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of products whose labels include the deleted uses until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the product whose label includes the deleted uses. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. The Agency will publish the cancellation order in the **Federal Register**.
