Title: Export Inspection and Weighing Waiver for High Quality Specialty Grains Transported in Containers Under the Authority of the United States Grain Standards Act.

OMB Control Number: 0581–0306.

Summary of Collection: The United States Grain Standards Act (USGSA), with few exceptions, requires official certification of export grain sold by grade. The regulations promulgating the USGSA require specific information collection and record-keeping necessary to enforce provisions in the statute. On July 29, 2011, Federal Grain Inspection Service (FGIS) published a final rule in the **Federal Register** (76 FR 45397) to amend the regulations under the USGSA to make permanent a waiver that expired on July 31, 2012 for high quality specialty grains exported in containers from the mandatory inspection and weighing requirements of the USGSA. To ensure that exporters of high-quality specialty grains comply with this waiver, FGIS is asking exporters to maintain records generated during their normal course of business that pertain to these shipments and make these documents available to the FGIS upon request. FGIS has no other means available to monitor the grain industry's compliance with provisions of this waiver.

Need and Use of the Information: To comply with the waiver of the mandatory inspection and weighing requirement, FGIS is asking exporters of high quality specialty grains transported in containers to maintain records generated during their normal course of business that pertain to these shipments and make these documents available to FGIS upon request. Experience has shown that the U.S. grain industry maintains grain contracts that specify quality parameters agreed to by buyers and sellers of grain. FGIS believes that grain contracts would provide sufficient information to determine if exporters of high-quality specialty grain are complying with the waiver. This information collection requirement is essential for FGIS to enforce provisions set forth in the USGSA. FGIS intends to request copies of the relevant documents annually to ensure

compliance with this waiver. FGIS also will require exporters to maintain records for a 3-year period.
