

ERP No. D-UAF-K11110-CA Rating EC2, Los Angeles Air Force Base Land Conveyance, Construction and Development Project, Transfer Portions of Private Development in Exchange for Construction of New Seismically Stable Facilities, Cities of El Segundo and Hawthorne, Los Angeles County, CA.

Summary: EPA expressed environmental concerns regarding air toxic impacts and recommended additional analysis and mitigation to reduce air pollution.

ERP No. DB-AFS-L65155-00 Rating LO, Northern Spotted Owl Project, Updated information to Amend Selected Portions of the Aquatic Conservation Strategy, (Part of the Northwest Forest Plan), Protect and Restore Watersheds, CA, WA, and OR.

Summary: EPA has no objections to the proposed action. However, the final EIS should consider a more specific statement of project purpose, include additional data on existing conditions and recent Strategy actions in the Plan area, and a prediction of cumulative impacts based on key threshold levels.

Final EISs

ERP No. F-FHW-J40175-UT, Reference Post (RP) 13 Interchange and City Road Project, Construction of New Interchange at RP 13 between I-15 and City Road in Washington City, Funding, Washington County, UT.

Summary: EPA has environmental concerns regarding the lack of alternatives presented in the FEIS to meet the purpose and need of accommodating planned future growth. EPA continues to believe that, in this case, one build alternative is not sufficient for an adequate EIS.

ERP No. F-NPS-J65365-00, Glen Canyon National Area, Personal Watercraft Rule-Making, Implementation, Lake Powell, Coconino County, AZ and Garfield, Kane, San Juan and Wayne Counties, UT.

Summary: EPA continued to express environmental concerns about potential violations of State water quality standards and suggested a compliance strategy. While EPA commends the NPS for providing an improved preferred alternative there were other reasonable alternatives that should have been analyzed.

II. What Action is the Agency Taking?

This notice announces receipt by the Agency of a request from the registrant to cancel its EPA Registration for the pesticide product containing the active ingredient, fenridazone potassium. The technical registrant, Monsanto Company submitted a letter to the Agency on May 20, 2003, requesting a voluntary cancellation of their only registration for the product containing fenridazone potassium. This registration is listed in the following Table 1.

TABLE 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
524-453	Hybrex 2LC Chemical Hybridizing Agent	Fenridazone potassium

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation. In addition, section

6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary termination of any minor agricultural use before granting the request, unless: (1) The registrants request a waiver of the comment period, or (2) the Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on

the environment. The registrant has requested that EPA waive the 180-day comment period. EPA is granting the registrants' request to waive the 180-day comment period. Therefore, EPA will provide a 30-day comment period on the proposed requests. EPA anticipates granting the cancellation request shortly after the end of the 30-day comment period for this notice
