| <p>NOTE 2: Payment indicators for "office-based" procedures (P2, P3) are based on a comparison of the final rates according to the ASC standard ratesetting methodology and the MPFS. At the time we compiled this addenda, current law requires a negative update to the MPFS payment rates for CY 2011. For a discussion of those rates, we refer readers to the CY 2011 MPFS proposed rule.</p> <p>*: Asterisked codes(*) indicate that the procedure's "office-based," designation is temporary because we have insufficient claims data. We will reconsider this designation when new claims data become available.</p> <p>** : Double asterisked codes (**) indicate that coinsurance is waived under section 4103 of the Affordable Care Act, which waives coinsurance for most preventive services.</p> |                  |   |                                    |                                    |                                 |                          |
