

the Vocational Rehabilitation Act of 1973, and (3) similar cohorts of youth with an IEP who were studied in the past.

Districts and youth will be randomly selected to ensure that they are nationally representative. The study sample will include approximately 500 school districts and 15,000 students. Phase I data collection will occur in spring 2012 and spring 2014, when sample members will be ages 13–21 and 15–23, respectively. The study will collect data from parents, youth, principals, teachers, and student school records.

Copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the “Browse Pending Collections” link and by clicking on link number 4673. When you access the information collection, click on “Download Attachments” to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202–4537. Requests may also be electronically mailed to [ICDocketMgr@ed.gov](mailto:ICDocketMgr@ed.gov) or faxed to 202–401–0920. Please specify the complete title of the information collection and OMB Control Number when making your request.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339.

### Federal Energy Regulatory Commission

[Docket No. IC11–510–000]

#### Commission Information Collection Activities (FERC–510); Comment Request; Extension

**AGENCY:** Federal Energy Regulatory Commission, Energy.

**ACTION:** Notice of proposed information collection and request for comments.

**SUMMARY:** In compliance with the requirements of section 3506(c)(2)(a) of the Paperwork Reduction Act of 1995

(Pub. L. 104–13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

**DATES:** Comments in consideration of the collection of information are due September 20, 2011.

**ADDRESSES:** Comments may be filed either electronically (eFiled) or in paper format, and should refer to Docket No. IC11–521–000. Documents must be prepared in an acceptable filing format and in compliance with Commission submission guidelines at: <http://www.ferc.gov/help/submission-guide.asp>. eFiling instructions are available at: <http://www.ferc.gov/docs-filing/efiling.asp>. First time users must follow eRegister instructions at: <http://www.ferc.gov/docs-filing/eregistration.asp>, to establish a username and password before eFiling. The Commission will send an automatic acknowledgement to the sender's e-mail address upon receipt of eFiled comments. Commenters making an eFiling should not make a paper filing. Commenters that are not able to file electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street, NE., Washington, DC 20426.

Users interested in receiving automatic notification of activity in this docket may do so through eSubscription at <http://www.ferc.gov/docs-filing/esubscription.asp>. In addition, all comments and FERC issuances may be viewed, printed or downloaded remotely through FERC's eLibrary at <http://www.ferc.gov/docs-filing/elibrary.asp>, by searching on Docket No. IC11–521. For user assistance, contact FERC Online Support by e-mail at [ferconlinesupport@ferc.gov](mailto:ferconlinesupport@ferc.gov), or by phone at: (866) 208–3676 (toll-free), or (202) 502–8659 for TTY.

**FOR FURTHER INFORMATION CONTACT:** Ellen Brown may be reached by e-mail at [DataClearance@FERC.gov](mailto:DataClearance@FERC.gov), telephone at (202) 502–8663, and fax at (202) 273–0873.

**SUPPLEMENTARY INFORMATION:** The information collected under the requirements of FERC–510, “Application for Surrender of Hydropower License”, (OMB No. 1902–0068) is used by the Commission to

implement the statutory provisions of sections 4(e), 6 and 13 of the Federal Power Act (FPA) 16 U.S. Code (U.S.C.) sections 797(e), 799 and 806. Section 4(e) gives the Commission authority to issue licenses for the purposes of constructing, operating and maintaining dams, water conduits, reservoirs, powerhouses, transmission lines or other power project works necessary or convenient for developing and improving navigation, transmission and utilization of power over which Congress has jurisdiction. Section 6 gives the Commission the authority to prescribe the conditions of licenses including the revocation or surrender of the license. Section 13 defines the Commission's authority to delegate time periods for when a license must be terminated if project construction has not begun. Surrender of a license may be desired by a licensee when a licensed project is retired, not constructed, or natural catastrophes have damaged or destroyed the project facilities. The information collected under the designation FERC–510 is in the form of a written application for surrender of a hydropower license. The information is used by Commission staff to determine the broad impact of such surrender. The Commission will issue a notice soliciting comments from the public and other agencies and conduct a careful review of the prepared application before issuing an order for surrender of a license. The order is the result of an analysis of the information produced, *i.e.*, economic, environmental concerns, *etc.*, which are examined to determine if the application for surrender is warranted. The order implements the existing regulations and is inclusive for surrender of all types of hydropower licenses issued by FERC and its predecessor, the Federal Power Commission. The Commission implements these mandatory filing requirements in the Code of Federal Regulations (CFR) under 18 CFR 6.1–6.4.

**Action:** The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

**Burden Statement:** Public reporting burden for this collection is estimated as:

	Number of respondents annually	Number of responses per respondent	Average burden hours per response	Total annual burden hours
(1)		(2)	(3)	(1)×(2)×(3)
16 .....		1	10	160

Estimated cost burden to respondents is \$10,952 (160 hours/2080 hours per year times \$142,372 per year average per employee = \$10,952 (rounded)). The estimated annual cost per respondent is \$685 (rounded).

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g. permitting electronic submission of responses.

Dated: July 18, 2011.

BILLING CODE 6717-01-P

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project Nos. 8865-006 and 8865-007;  
Project Nos. 8866-006 and 8866-007]

#### N. Stanley Standal and Loretta M. Standal; Lynn E. Stevenson; Notice of Change in Docket Numbers

1. On March 18, 1986, the Commission issued two licenses to the Lynn E. Stevenson, one for Project No. 1, FERC Project No. 8865<sup>1</sup> and the other for Project No. 2, FERC Project No. 8866.<sup>2</sup> Both projects are located on different unnamed tributaries to the Snake River in Gooding County, Idaho.

2. Several years later, Mr. Stevenson died and, on March 18, 2004, the Commission issued an Order Approving Transfer of License<sup>3</sup> for Project No. 2, FERC Project No. 8866 approving the transfer of license from the estate of Lynn E. Stevenson to N. Stanley and Loretta M. Standal. Shortly thereafter, on July 20, 2004, the Commission issued an Order Amending License<sup>4</sup> for Project No. 2, FERC Project No. 8866, for the replacement of the single 85 kW turbine/generator unit with three units totaling 70 kW. However, these orders misidentified the transferred and amended license as Project No. 2, FERC Project No. 8866, when the orders should have identified the project and license as Project No. 1, FERC Project No. 8865. The transfer of license and amendment orders were also incorrectly docketed as P-8866-006 and P-8866-007, respectively, when the orders should have been docketed as P-8865-006 and P-8865-007.

3. Accordingly, the Commission corrects the record in this notice by substituting Project No. 1, FERC Project No. 8865, instead of Project No. 2, FERC Project No. 8866, in the transfer and amendment orders. N. Stanley and Loretta M. Standal are correctly identified as the licensees for Project No. 1, FERC Project No. 8865 and Lynn E. Stevenson is still the license of record for Project No. 2, FERC Project No. 8866.

4. In order to correct the record based on this earlier misidentification, all filings and issuances since the filing of the transfer of license application, on November 12, 2003, made in P-8866 are moved into record for P-8865 and all filings made in P-8865 are moved in the record for P-8866.

<sup>1</sup> 34 FERC ¶ 62,531 (1986).

<sup>2</sup> 34 FERC ¶ 62,530 (1986).

<sup>3</sup> 106 FERC ¶ 62,212 (2004).

<sup>4</sup> 108 FERC ¶ 62,059 (2004).

Dated: July 18, 2011.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[ Docket No. ER11-4047-000]

#### Invenergy Wind Development Michigan LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Invenergy Wind Development Michigan LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is August 8, 2011.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the
