

such as bombers, tankers, and fighters. The DAF considered other locations on Andersen AFB for construction of infrastructure upgrades; however, only the Proposed Action locations were determined to meet the criteria for the infrastructure upgrades. The No Action Alternative will be addressed in the EIS as well.

Additional review and consultation which will be incorporated into the preparation of the Draft EIS will include, but are not necessarily limited to, consultation under Section 7 of the Endangered Species Act and consultation under Section 106 of the National Historic Preservation Act. The DAF will conduct cultural and natural resources surveys in the areas proposed for upgrades and consult with appropriate resource agencies to determine the potential for significant impacts on those resources. During construction, the DAF anticipates an increased demand on the construction workforce and an increase in local spending. Currently, no other short- or long-term notable impacts are anticipated. Additional analysis will be provided in the Draft EIS.

Scoping and Agency Coordination: To effectively define the full range of issues to be evaluated in the EIS, the Air Force will determine the scope of the analysis by soliciting comments from interested local, territorial, and federal elected officials and agencies, as well as interested members of the public and others. Comments are requested on potential alternatives and impacts, and identification of any relevant information, studies, or analyses of any kind concerning impacts affecting the quality of the human environment. Concurrent with the publication of this notice of intent, public scoping notices will be announced locally. In response to the coronavirus (COVID-19) pandemic in the United States and the Center for Disease Control's recommendations for social distancing and avoiding large public gatherings, the DAF will not hold in-person public scoping meetings. Public scoping will instead be accomplished remotely, in accordance with the 2020 version of 40 CFR 1506.6, via the project website at www.AAFBInfrastructureEIS.com. The website provides posters, a presentation, an informational brochure, in English and Chamorro, other meeting materials, and the capability for the public to provide public scoping comments. Scoping materials are also available in print at the Nieves M. Flores Memorial

Library (254 Martyr Street, Hagåtña, Guam).
