

sought approval to implement the New Source Review (NSR) Reform provisions that were not vacated by the United States Court of Appeals for the District of Columbia (DC Circuit) in *New York v. EPA*. The final rule approved certain revisions to Ohio's NSR program, which Ohio submitted to EPA for review on September 14, 2004, under the Clean Air Act (CAA). Subsequently EPA received a petition dated April 26, 2010, for reconsideration from the Natural Resources Defense Council (NRDC). The petition also requested that EPA stay implementation of certain provisions of the final rule pending its reconsideration. EPA considered the petition for reconsideration and request for an administrative stay, along with information contained in the rulemaking docket, in reaching a decision on both the petition and request for a stay. EPA Administrator, Lisa P. Jackson, denied both the petition for reconsideration and request for stay in a letter to the petitioner dated January 24, 2012. The letter explains the basis for the denial and is available as set forth below.

**FOR FURTHER INFORMATION CONTACT:** Andrea Morgan, Environmental Engineer, Air Permits Section, Air Programs Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353-6058, [morgan.andrea@epa.gov](mailto:morgan.andrea@epa.gov).

**SUPPLEMENTARY INFORMATION:**

**I. How can I get copies of this document and other related information?**

This action, the petition for reconsideration, and the letter denying the petition for reconsideration and request for an administrative stay during the reconsideration are available in the docket that has been established for this action under Docket ID No. EPA-R05-OAR-2004-OH-0004. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Publicly available docket materials are available in hard copy at: Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you contact Andrea Morgan, Environmental Engineer, at (312) 353-6058 before visiting the Region 5 office. In addition to being available in the docket, an electronic copy of each of these documents will be available on the World Wide Web. Following publication, a copy of this action will be posted on EPA's NSR Web site, under

Regulations & Standards, at <http://www.epa.gov/nsr>.

**II. Judicial Review**

Under CAA section 307(b), judicial review of this final action is available only by filing a petition for review in the U.S. Court of Appeals for the District of Columbia Circuit on or before April 30, 2012.

Dated: February 13, 2012.

**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 52**

**[Docket No. EPA-R02-OAR-2011-0687, FRL-9635-4]**

**Approval and Promulgation of Implementation Plans; New York; Motor Vehicle Enhanced Inspection and Maintenance Program**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving a proposed State Implementation Plan revision submitted by the New York State Department of Environmental Conservation. This revision consists of changes to New York's motor vehicle enhanced inspection and maintenance program that would eliminate the transient emission short test program as it relates to the New York portion of the New York-Northern New Jersey-Long Island, NY-NJ-CT 8-hour ozone moderate nonattainment area. EPA is approving this State Implementation Plan revision because it meets all applicable requirements of the Clean Air Act and EPA's regulations and because the revision will not interfere with attainment or maintenance of the national ambient air quality standards in the affected area. The intended effect of this action is to maintain consistency between the State-adopted rules and the federally approved SIP.

**DATES:** *Effective Date:* This rule will be effective March 29, 2012.

**ADDRESSES:** EPA has established a docket for this action under Docket ID No. EPA-R02-OAR-2011-0687. All documents in the docket are listed on the [www.regulations.gov](http://www.regulations.gov) Web site. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose

disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through [www.regulations.gov](http://www.regulations.gov) or in hard copy at the Environmental Protection Agency, Region 2 Office, Air Programs Branch, 290 Broadway, 25th Floor, New York, New York 10007-1866. This Docket Facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The Docket telephone number is 212-637-4249.

**FOR FURTHER INFORMATION CONTACT:** Kirk J. Wieber, Air Programs Branch, Environmental Protection Agency, 290 Broadway, 25th Floor, New York, New York 10007-1866, (212) 637-3381.

**SUPPLEMENTARY INFORMATION:**

**Table of Contents**

- I. What action is EPA taking?
- II. What was included in New York's proposed SIP submittal?
- III. What comments Did EPA receive in response to its proposal?
- IV. Summary of Conclusions
- V. Statutory and Executive Order Reviews

**I. What action is EPA taking?**

The EPA is approving a revision to the New York State Implementation Plan (SIP) pertaining to New York's motor vehicle enhanced inspection and maintenance (I/M) program that proposes to end tailpipe testing on December 31, 2010. This proposed SIP revision also outlines several changes to New York's enhanced I/M programs currently operating within the New York portion of the New York-Northern New Jersey-Long Island, NY-NJ-CT nonattainment area (referred to as NYMA). New York proposes to reduce the percentage of emissions waivers allowed within that area to 2% (from 3%). New York indicates that the decentralized program, which features on-board diagnostics inspections, is as effective as a centralized test-only program for modeling purposes.

**II. What was included in New York's proposed SIP submittal?**

After completing the appropriate public notice and comment procedures, on July 10, 2009, the New York State Department of Environmental Conservation (NYSDEC) submitted to EPA a proposed SIP revision that includes changes to the New York State enhanced I/M program. The changes include a proposal to end tailpipe testing through the New York Transient Emissions Short Test (NYTEST) I/M program on December 31, 2010. The

proposed revision also includes a reduction in the percentage of emissions test waivers allowed within NYMA to 2% (from 3%) beginning in calendar year 2008. The SIP revision includes MOBILE6 vehicle emission modeling software (MOBILE6) demonstration for the high enhanced I/M performance standard.

On February 15, 2011, NYSDEC made a supplemental SIP submittal to EPA which included recent revisions to Title 6 of the New York Codes, Rules and Regulations (NYCRR), Part 217, "Motor Vehicle Emissions," and the New York State Department of Motor Vehicles (NYSDMV) regulation found at Title 15 NYCRR Part 79, "Motor Vehicle Inspection." New York adopted these rule revisions to end the NYTEST I/M program. This submittal was also subject to public notice and comment. On September 16, 2011 (76 FR 57696), EPA proposed to approve New York's revised I/M program. For a detailed discussion on the content and requirements of the revisions to New York's regulations, the reader is referred to EPA's proposed rulemaking action.

### III. What comments did EPA receive in response to its proposal?

In response to EPA's September 16, 2011 proposed rulemaking action, EPA received no comments.

### IV. Summary of Conclusions

EPA's review of the materials submitted indicates that New York has revised its I/M program in accordance with the requirements of the Clean Air Act, 40 CFR Part 51 and all of EPA's technical requirements for an approvable enhanced I/M program. EPA is approving the revisions to the Title 6, New York Codes, Rules and Regulations (NYCRR), Part 217, "Motor Vehicle Emissions," Subparts 217-1, 217-4 and the adoption of new Subpart 217-6, as effective on December 5, 2010, and the New York State Department of Motor Vehicles (NYSDMV) regulation Title 15 NYCRR Part 79 "Motor Vehicle Inspection," Sections 79.1-79.15, 79.17, 79.20, 79.21, 79.24, 79.25, as effective on December 29, 2010, which incorporate the State's motor vehicle I/M program requirements. The Clean Air Act gives states the discretion in program planning to implement programs of the state's choosing as long as necessary emission reductions are met. EPA is also approving New York's performance standard modeling demonstration, which reflects the State's I/M program as it is currently implemented in the NYMA as well as throughout New York State.

### V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct

costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 30, 2012. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

### List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Oxides of nitrogen, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: February 1, 2012.

BILLING CODE 6560–50–P

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52****[EPA–R04–OAR–2010–0696–201202; FRL–9635–6]****Approval and Promulgation of Implementation Plans; Tennessee: Prevention of Significant Deterioration; Greenhouse Gas Tailoring Rule Revision****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

**SUMMARY:** EPA is taking final action to approve a revision to the State Implementation Plan (SIP), submitted by the State of Tennessee, through the Tennessee Department of Environmental Conservation (TDEC), Air Pollution Control Division, to EPA on August 30, 2010, for parallel processing. TDEC submitted the final version of this SIP revision on January 11, 2012. The SIP revision approved by today's action adopts into Tennessee's SIP rules impacting the regulation of greenhouse gases (GHGs) under Tennessee's New Source Review (NSR) Prevention of Significant Deterioration (PSD) program. Specifically, the SIP revision establishes appropriate emission thresholds for determining which new stationary sources and modification projects become subject to

Tennessee's PSD permitting requirements for GHG emissions. This rule incorporates state law changes into the federally approved SIP, and specifically clarifies the applicable thresholds in the Tennessee SIP for GHG PSD requirements. EPA is approving Tennessee's January 11, 2012, SIP revision because the Agency has made the determination that this SIP revision is in accordance with the Clean Air Act (CAA or Act) and EPA regulations, including regulations pertaining to PSD permitting for GHGs. Additionally, EPA is responding to adverse comments received on EPA's November 5, 2010, proposed approval of Tennessee's August 30, 2010, draft SIP revision.

**DATES:** *Effective Date:* This rule will be effective March 29, 2012.

**ADDRESSES:** EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2010–0696.
