

The STAA awards are established to honor and recognize EPA employees who have made outstanding contributions in the advancement of science and technology through their research and development activities, as exhibited in publication of their results in peer reviewed journals. In conducting its review, the SAB considers each nomination in relation to the following four award levels:

- Level I awards are for those who have accomplished an exceptionally high-quality research or technological effort. The awards recognize the creation or general revision of a scientific or technological principle or procedure, or a highly significant improvement in the value of a device, activity, program, or service to the public. Awarded research is of national significance or has high impact on a broad area of science/technology. The research has far reaching consequences and is recognizable as a major scientific/technological achievement within its discipline or field of study.

- Level II awards are for those who have accomplished a notably excellent research or technological effort that has qualities and values similar to, but to a lesser degree, than those described under Level I. Awarded research has timely consequences and contributes as an important scientific/technological achievement within its discipline or field of study.

- Level III awards are for those who have accomplished an unusually notable research or technological effort. The awards are for a substantial revision or modification of a scientific/technological principle or procedure, or an important improvement to the value of a device, activity, program, or service to the public. Awarded research relates to a mission or organizational component of the EPA, or significantly affects a relevant area of science/technology.

- Honorable Mention awards acknowledge research efforts that are noteworthy but do not warrant a Level I, II or III award. Honorable Mention applies to research that: (1) May not quite reach the level described for a Level III award; (2) show a promising area of research that the STAA Panel wants to encourage; or (3) show an area of research that the STAA Panel feels is too preliminary to warrant an award recommendation at this time.

The SAB reviews the STAA nomination packages according to the following five evaluation factors:

- The extent to which the work reported in the nominated publication(s) resulted in either new or significantly revised knowledge. The

accomplishment is expected to represent an important advancement of scientific knowledge or technology relevant to environmental issues and EPA's mission.

- The extent to which environmental protection has been strengthened or improved, whether of local, national, or international importance.

- The degree to which the research is a product of the originality, creativeness, initiative, and problem-solving ability of the researchers, as well as the level of effort required to produce the results.

- The extent of the beneficial impact of the research and the degree to which the research has been favorably recognized from outside EPA.

- The nature and extent of peer review, including stature and quality of the peer-reviewed journal or the publisher of a book for a review chapter published therein.

I have determined that the meetings of the STAA Panel and Chartered SAB will be closed to the public because they are concerned with selecting employees deserving of awards. In making these recommendations, the Agency requires full and frank advice from the SAB. This advice will involve professional judgments on the relative merits of various employees and their respective work. Such personnel matters involve the discussion of information that is of a personal nature and the disclosure of which would be a clearly unwarranted invasion of personal privacy and, therefore, are protected from disclosure by section 10(d) of the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, and sections (c)(2) and (c)(6) of the Government in the Sunshine Act, 5 U.S.C. 552b(c)(2) and (6). Minutes of the meetings of the STAA Panel and the Chartered SAB will be kept and certified by the chair of those meetings.

Michael S. Regan,

Administrator.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2021-0112; FRL-9557-01-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Printing, Coating and Dyeing of Fabrics and Other Textiles (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Printing, Coating and Dyeing of Fabrics and Other Textiles (EPA ICR Number 2071.10, OMB Control Number 2060-0522), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2022. Public comments were previously requested, via the **Federal Register**, on April 13, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before March 11, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2021-0112, online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain

in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Printing, Coating and Dyeing of Fabrics and Other Textiles apply to each existing, new, or reconstructed source involved in printing, coating, slashing, dyeing or finishing of fabric and other textiles. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart OOOO.

Form Numbers: 5900-530.

Respondents/affected entities: Printing, coating, slashing, dyeing, or finishing of fabric and other textiles facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart OOOO).

Estimated number of respondents: 44 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 7,080 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$960,000 (per year), which includes \$123,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an increase in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to three considerations. This ICR incorporates the incremental burden from the 2019 RTR amendment (ICR No. 2071.09) into the total cost of the rule. The regulations were revised in the 2019 RTR amendment adding a requirement to periodically test add-on control devices, resulting in an increase in capital/startup costs for this testing, as well as for increased labor burden for conducting the tests, submitting reports, and keeping records. An additional

facility that is subject to this subpart was identified in a search of EPA's ECHO database. This facility became subject to this subpart after the 2019 RTR; therefore, the respondent counts in this ICR renewal are updated to include this facility.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[CERCLA-02-2021-2033; FRL-9475-01-R2]

Proposed CERCLA Settlement Agreement for the Pierson's Creek Superfund Site, City of Newark, Essex County, New Jersey

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), notice is hereby given by the U.S. Environmental Protection Agency ("EPA"), Region 2, of a proposed bona fide prospective purchaser agreement ("Agreement") with 429 Delancy Associates, L.L.C. ("429 Delancy") for the Pierson's Creek Superfund Site ("Site"), located in the City of Newark, Essex County, New Jersey. Under the proposed Agreement, 429 Delancy agrees to perform a non-time critical removal action to remove mercury-contaminated sediments on 429 Delancy's property adjacent to Pierson's Creek, which flows through its property, and to reimburse EPA for costs incurred in overseeing this work. The property is located at 429 Delancy Street, City of Newark, Essex County, New Jersey, designated as Block 5042, Lot 02 within the Pierson's Creek Superfund Site.

DATES: Comments must be submitted on or before March 11, 2022.

ADDRESSES: Comments can be sent via email to Amelia Wagner at wagner.amelia@epa.gov. Comments should reference the Pierson's Creek Superfund Site, CERCLA Settlement Agreement, Index No. CERCLA-02-2021-2033. The proposed settlement is available for public inspection at this website: <https://semspub.epa.gov/src/document/02/638500>.

FOR FURTHER INFORMATION CONTACT: Amelia Wagner, Attorney, Office of Regional Counsel, U.S. Environmental Protection Agency. Email:

wagner.amelia@epa.gov. Telephone: 212-637-3141.

SUPPLEMENTARY INFORMATION: For thirty (30) days following the date of publication of this document, EPA will receive written comments relating to the proposed Agreement. EPA will consider all comments received and may modify or withdraw its consent to the proposed Agreement if comments received disclose facts or considerations that indicate that the proposed Agreement is inappropriate, improper, or inadequate. EPA's response to any comments received will be available for public inspection online and/or at EPA Region 2, 290 Broadway, New York, New York 10007-1866.

Pasquale Evangelista,

Director, Superfund & Emergency Management Division, Environmental Protection Agency, Region 2.
