

for research, education, and application of science to operations and information services. SAB activities and advice provide necessary input to ensure that National Oceanic and Atmospheric Administration (NOAA) science programs are of the highest quality and provide optimal support to resource management.

Status: The June 11, 2021 meeting will be open to public participation with a 5-minute public comment period at 11:55 a.m. EDT. The SAB expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to a total time of three minutes. Written comments for the June 11, 2021 meeting should be received by the SAB Executive Director's Office by June 04, 2021 to provide sufficient time for SAB review. Written comments received by the SAB Executive Director after these dates will be distributed to the SAB, but may not be reviewed prior to the meeting date.

Special Accommodations: This meeting is physically accessible to people with disabilities. Requests for special accommodations may be directed to the Executive Director no later than 12 p.m. on June 04, 2021.

Matters To Be Considered: The meeting on June 11, 2021 will consider (1) Revisions to the Environmental Information Services Working Group's Statement on Ongoing National Weather Service Data Dissemination Challenges; and (2) SAB Priorities for Weather Research Study update. The full agenda will be published on the SAB website. Meeting materials, including work products, will also be available on the SAB website: <http://sab.noaa.gov/SABMeetings.aspx>.

Dated: May 13, 2021.

David Holst,

Chief Financial Officer/Administrative Officer, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-KD-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Marine Debris Program Performance Progress Report

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or BEFORE July 20, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0718 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Tom Barry, Management and Program Analyst, NOAA/NOS/ORR, 202-870-2863 or tom.barry@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of a currently approved information collection.

The NOAA Marine Debris Program (MDP) operates within the Office of Response and Restoration as part of NOAA's National Ocean Service. The MDP supports national and international efforts to research, prevent, and reduce the impacts of marine debris. The MDP is the lead program within NOAA that coordinates and supports activities, both within the bureau and with other federal agencies, to address marine debris and its

impacts. In addition to inter-agency coordination, the MDP uses partnerships with state and local agencies, tribes, non-governmental organizations, academia, and industry to investigate and solve the problems that stem from marine debris through research, prevention, and reduction activities, in order to protect and conserve our nation's marine environment and ensure navigation safety.

The Marine Debris Research, Prevention, and Reduction Act (33 U.S.C. 1951 *et seq.*) as amended by the Marine Debris Act Amendments of 2012 (Pub. L. 112-213, Title VI, Sec. 603, 126 Stat. 1576, December 20, 2012), and the Save our Seas Act and Save our Seas 2.0 Act in 2018 and 2020, respectively. The Save our Seas 2.0 Act was signed into law on December 18, 2020 (Pub. L. 116-224). These authorities outline a variety of different program components for the MDP to undertake in addressing the marine debris issue: Marine debris mapping, identification, impact assessment, research, removal, and prevention. To address these components, the Marine Debris Act and the subsequent amendments listed above authorize the MDP to establish several competitive grant programs on marine debris research, prevention, and removal to support non-federal entities throughout the coastal United States and territories with financial and technical assistance. Other supplemental appropriations, such as the Bipartisan Budget Act of 2018 and the United States-Mexico-Canada Agreement (USMCA) Supplemental Appropriations Act of 2019 (Pub. L. 116-113, Title IX), have provided authority to the MDP for marine debris work in dealing with hurricane recovery and international transboundary marine debris issues as well.

The terms and conditions of the financial assistance awards made through these grant programs require regular progress reporting and communication of project accomplishments to MDP. Progress reports contain information related to, among other things, the overall short and long-term goals of the project, project methods and monitoring techniques, actual accomplishments (such as tons of debris removed from an ecosystem, numbers of volunteers participating in a cleanup project, the number of educational interactions with the public, etc.), status of approved activities, challenges or potential roadblocks to future progress, lessons learned, and budget expenditures. This information collection enables MDP to monitor and evaluate the activities

supported by federal funds to ensure accountability to the public and to ensure that funds are used in a manner consistent with the purpose for which they were appropriated. It also ensures that reported information is standardized in such a way that allows it to be meaningfully synthesized across a diverse set of projects and project types. MDP uses the information collected in a variety of ways to communicate with federal and non-federal partners and stakeholders on individual project and general program accomplishments.

II. Method of Collection

Respondents to this collection may choose to submit electronically or in paper format.

III. Data

OMB Control Number: 0648–0718.

Form Number(s): None.

Type of Review: Regular submission (extension of an approved information collection).

Affected Public: Business or other for-profit, not-for-profit institutions, state, local or tribal government.

Estimated Number of Respondents: 70.

Estimated Time per Response: 10 Hours (semi-annually).

Estimated Total Annual Burden Hours: 1,400.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Mandatory.

Legal Authority: Marine Debris Research, Prevention, and Reduction Act (33 U.S.C. 1951 *et seq.*) as amended by the Marine Debris Act Amendments of 2012 (Pub. L. 112–213, Title VI, Sec. 603, 126 Stat. 1576, December 20, 2012); Save our Seas Act and Save our Seas 2.0 Act (Pub. L. 116–224).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of

public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–JE–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XB102]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public online meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Scientific and Statistical Committee's (SSC's) Salmon Subcommittee will meet to review the SSC's role in reviewing salmon forecast methodologies and other analyses informing Pacific Council decisions as specified in the Pacific Coast Salmon Fishery Management Plan (FMP) and in Council Operating Procedure (COP) 15. The SSC Salmon Subcommittee may also discuss how best scientific information available (BSIA) determinations for salmon decision-making might be structured.

DATES: The online meeting will be held Friday, June 4, 2021, from 9 a.m. to 1 p.m., Pacific Daylight Time.

ADDRESSES: This meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820–2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220–1384.

FOR FURTHER INFORMATION CONTACT: John DeVore, Staff Officer; Pacific Council, telephone: (503) 820–2413.

SUPPLEMENTARY INFORMATION: The purpose of the SSC Salmon Subcommittee meeting will be to review the Pacific Coast Salmon FMP and COP 15 to evaluate the SSC's role in future methodology reviews of salmon run forecast methodologies and other analyses used by the Pacific Council in management decision-making. The SSC will seek clarification from the Pacific Council at its June 2021 meeting regarding their role in reviewing salmon run forecasts. The SSC Salmon Subcommittee may also discuss BSIA determinations for salmon decision-making that could inform SSC recommendations on the regional BSIA framework which are scheduled to be presented at the September 2021 Pacific Council meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt, (kris.kleinschmidt@noaa.gov; (503) 820–2412), at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 17, 2021,

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
