RIN 0648-BA16

Fisheries of the Northeastern United States; Discard Provision for Herring Midwater Trawl Vessels Fishing in Groundfish Closed Area I

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS seeks public comment on a provision of the regulations implemented by a November 2, 2009, final rule, as well as comments on proposed alternatives to replace this provision. The provision allows a midwater trawl vessel with an All Areas and/or Areas 2 and 3 Atlantic herring limited access permit fishing in Northeast (NE) multispecies Closed Area I (CA I) to release fish that cannot be pumped from the net and, thus, remain in the net at the end of pumping operations, without those fish being sampled by a NMFS at-sea observer. Based on comments that it receives, NMFS may keep the current provision unchanged, modify the provision, or remove the provision entirely. This action is part of a Court-approved joint motion to stay.

DATES: Written comments must be received no later than 5 p.m. local time on October 7, 2010.

ADDRESSES: You may submit comments, identified by 0648-BA16, by any one of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal e-rulemaking portal: <http://www.regulations.gov>.
