

to sections 337(d) and 1502. The text of those regulations also serves as the text of these proposed regulations. The preamble to the temporary regulations contains a full explanation of the reasons underlying the issuance of the proposed regulations.

Special Analyses

It has been determined that this Treasury decision is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It is hereby certified that these regulations do not have a significant economic impact on a substantial number of small entities. This certification is based on the fact that these regulations will primarily affect affiliated groups of corporations that have elected to file consolidated returns, which tend to be larger businesses, and, moreover, that any burden on taxpayers is minimal. Therefore, a Regulatory Flexibility Analysis under the Regulatory Flexibility Act (5 U.S.C. chapter 6) is not required. Pursuant to section 7805(f) of the Internal Revenue Code, these regulations will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Comments and Public Hearing

The IRS and Treasury are undertaking a study of the various approaches that could be implemented to give full effect to section 337(d) and to reflect the single entity principles of the consolidated return rules. Among the approaches the IRS and Treasury are studying is one that would deny positive investment adjustments for gain recognized and income attributable to the disposition or consumption of built-in gain assets held by the subsidiary at the time it joined the consolidated group. In addition, the IRS and Treasury are considering allowing selling groups to deduct subsidiary stock losses that would otherwise reflect duplicated loss, if the subsidiary reduces its attributes (including net operating loss carryovers and asset basis) immediately prior to the disposition. Comments are requested concerning any approaches that may be employed to allow appropriate losses in a manner that is administrable for both taxpayers and the government.

Before these proposed regulations are adopted as final regulations, consideration will be given to any electronic and written comments (a signed original and eight (8) copies) that are submitted timely to the IRS. All comments will be available for public inspection and copying. A public hearing has been scheduled for July 17,

2002, at 10 a.m., in the IRS Auditorium, IRS Building, 1111 Constitution, NW., Washington, DC. Because of access restrictions, visitors will not be admitted beyond the building lobby more than 15 minutes before the hearing starts.

Drafting Information

The principal authors of these regulations are Sean P. Duffley and Lola L. Johnson, Office of Associate Chief Counsel (Corporate). However, other personnel from the IRS and Treasury participated in their development.

SUPPLEMENTARY INFORMATION:

EPA is proposing to approve a revision to the UCMR for Public Water Systems. In the "Rules and Regulations" section of today's **Federal Register**, EPA is approving a revision to the Unregulated Contaminant Monitoring Regulation for Public Water Systems as a direct final rule without prior proposal because EPA views this as noncontroversial revision and anticipates no adverse comment. EPA has explained our reasons for this approval in the preamble to the direct final rule. If EPA receives no adverse comment, it will not take further action on this proposed rule. If EPA receives adverse comment, the Agency will withdraw the direct final rule and it will not take effect. EPA would then address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. For further information, please see the information provided in the direct final rule titled "Unregulated Contaminant Monitoring Regulation for Public Water Systems; Establishment of Reporting Date" that is located in the "Rules and Regulations" section of this **Federal Register** publication. For the various statutes and executive orders that require findings for rulemaking, EPA incorporates the findings from the direct final rule into this companion proposal for the purpose of providing public notice and opportunity for comment.

**FEDERAL EMERGENCY
MANAGEMENT AGENCY**

44 CFR Part 67

[Docket No. FEMA-D-7526]

**Proposed Flood Elevation
Determinations**

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT:

Matthew B. Miller, P.E., Chief, Hazards Study Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3461, or (e-mail) matt.miller@fema.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together

with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Acting Executive Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.
