### Federal Railroad Administration

[Docket No. FRA–2019–0099]

#### Petition for Approval Extension: Norfolk Southern Railway Company

**AGENCY:** Federal Railroad Administration (FRA), Department of Transportation (DOT).

**ACTION:** Notice of petition for extension of approval of track inspection test program.

**SUMMARY:** This document provides the public notice that on July 19, 2021, Norfolk Southern Railway Company (NS) petitioned the Federal Railroad Administration (FRA) to extend an existing temporary suspension of some visual track inspections to allow for a continuation of a previously approved Test Program designed to test track inspection technologies (*i.e.*, an autonomous track geometry measurement system) and new operational approaches to track inspections (*i.e.*, combinations of autonomous inspection and traditional visual inspections).

**FOR FURTHER INFORMATION CONTACT:** Yu-Jiang Zhang, Staff Director, Track and Structures Division, at (202) 493–6460 or [yujiang.zhang@dot.gov](mailto:yujiang.zhang@dot.gov); or Aaron Moore, Attorney, Office of the Chief Counsel, at (202) 493–7009 or [aaron.moore@dot.gov](mailto:aaron.moore@dot.gov).

**SUPPLEMENTARY INFORMATION:** On January 27, 2020, FRA conditionally approved the Test Program and NS's petition under 49 CFR 211.51 to suspend §§ 213.233(b)(3) and 213.233(c) as applied to operations under the Test Program. A copy of the Test Program, FRA's conditional approval of the Test Program, and a previously published **Federal Register** notice explaining FRA's rationale for approving the Test Program and related suspension are available for review in the docket.<sup>1</sup>

As approved, the Test Program included three separate phases over 12 months as outlined in Exhibit C of the

Program.<sup>2</sup> Accordingly, NS began the Test Program on March 16, 2020. However, FRA has approved extending the Test Program twice as requested by NS. Thus, the Test Program is currently set to expire on September 31, 2021.

On March 22, 2021, NS submitted a waiver petition<sup>3</sup> to permit a reduced frequency of manual track inspections where an automated track geometry measurement system (ATGMS) is used at specific frequencies. The petition, which is similar to and based on information collected by Norfolk Southern during the Test Program, is pending FRA review.

NS is requesting to extend the Test Program until FRA issues a decision on the pending waiver petition or December 31, 2021, whichever is later. In support of its request, NS states that it will continue to comply with all other conditions and requirements of FRA's January 27, 2020, approval letter.

A copy of the petition, as well as any written communications concerning the petition, if any, are available for review online at [www.regulations.gov](http://www.regulations.gov).

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

**Title:** Exemption Request from 85/15 Reporting Requirement, VA Form 22–10216.

**OMB Control Number:** 2900–NEW.

**Type of Review:** New collection.

**Abstract:** This form will be used to satisfy requirements as outlined. The Department of Veterans Affairs (VA) is authorized to pay education benefits to Veterans and other eligible persons pursuing approved programs of education under chapters 30, 31, 32, 33, and 35 of title 38, U.S.C. and chapter 1606 of title 10, U.S.C.

As part of the benefits authorization process, Code of Federal Regulations (CR) Title 38 § 21.4201 places restrictions on enrollment based on the

percentage of students receiving financial support in any approved program. Except as otherwise provided by regulation, VA shall not approve an enrollment in any course for an eligible Veteran, not already enrolled, for any period during which more than 85 percent of the students enrolled in the course are having all or part of their tuition fees or other charges paid for them by the educational institution or by VA under title 38, U.S.C., or under title 10, U.S.C. This is known as the 85/15 Rule and is applicable to Institutions of Higher Learning (IHLs) and Non-College Degree postsecondary schools (NCDs).

The requirements apply to all courses, not otherwise exempt or waiver offered by all educational institutions, regardless whether the institution is degree-granting, proprietary profit, proprietary nonprofit, eleemosynary, public and/or tax-supported.

These schools are required to submit information necessary to determine if their programs of training are approved for the payment of VA educational assistance. This specified information is submitted either to VA or to the State Approving Agency (SAA) having jurisdiction over that school.

This regulation includes a provision that permits an exemption from routine reporting of this data for schools that assert the number of VA beneficiary students in all programs approved for GI Bill never exceeds 35% of the total

enrollment at the educational institution. If approved, such schools must still monitor and collect the data, but are exempt from routinely reporting it to VA.

**Affected Public:** Individuals and households.

**Estimated Annual Burden:** 500 hours.

**Estimated Average Burden per Respondent:** 30 minutes.

**Frequency of Response:** Annually.

**Estimated Number of Respondents:** 1,000.
