Abstract of Information Available

Based on the information available, human remains representing, at least, one individual have been reasonably identified. No associated funerary objects are present. In an unknown year, human remains representing a minimum of one individual were removed from NY, Madison County, Oneida Valley, one mile from Oneida Lake, banks of Oneida Creek, Sterling's Farm. Walter Hildburg purchased these remains from Sterling in February 1898.

The AMNH acquired the remains of this individual in 1917 as a gift from Walter Hildburg and accessioned them that same year. No associated funerary objects are present. The following types of information were used to determine affiliation: archeological, biological, geographical, historical, and oral history.

While it no longer does so, in the past, the Museum applied potentially hazardous pesticides to items in the collections. Museum records do not list specific objects treated or which of several chemicals used were applied to a particular item. Therefore, those handling this material should follow the advice of industrial hygienists or medical personnel with specialized training in occupational health or with potentially hazardous substances.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains and associated funerary objects described in this notice.

Determinations

The AMNH has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a reasonable connection between the human remains and the Oneida Indian Nation.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after April 19, 2024. If competing requests for repatriation are received, the AMNH must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The AMNH is responsible for sending a copy of this notice to the Indian Tribes and Native

Hawaiian organizations identified in this notice.
