

53. With respect to the licenses being offered in Auction 89, the service rules permit a variety of fixed, mobile, and paging services, though the opportunities for combining licenses on adjacent frequencies or in adjacent areas are limited in some cases. Balancing the potential need for bidders to use withdrawals to avoid winning incomplete combinations of licenses with the Bureau's interest in deterring undesirable strategic use of withdrawals, the Bureau proposes a percentage below the maximum twenty percent permitted under the current rules but above the three percent previously provided by the Commission's rules. Specifically, the Bureau proposes to establish an interim bid withdrawal payment of ten percent of the withdrawn bid for this auction. The Bureau seeks comment on this proposal. If commenters advocate the use of a different percentage they should provide relevant support including information on the likelihood that bidders will need to aggregate licenses on adjacent frequencies or in adjacent areas.

ii. Establishing the Additional Default Payment Percentage

54. Any winning bidder that, after the close of an auction, defaults—by, for example, failing to remit the required down payment within the prescribed period of time, failing to submit a timely long-form application, or failing to make full payment—or is otherwise disqualified is liable for a default payment under 47 CFR 1.2104(g)(2). This payment consists of a deficiency payment, equal to the difference between the amount of the bidder's bid and the amount of the winning bid the next time a license covering the same spectrum is won in an auction, plus an additional payment equal to a percentage of the defaulter's bid or of the subsequent winning bid, whichever is less.

55. Section 1.2104(g)(2) of the Commission's rules provides that in advance of each auction without combinatorial or package bidding, establish an additional default payment for that auction of three percent up to a maximum of twenty percent. The level of this payment in each case will be based on the nature of the service and the inventory of the licenses being offered.

56. As previously noted by the Commission, defaults weaken the integrity of the auction process and impede the deployment of service to the public, and an additional default payment of more than three percent will be more effective in deterring defaults.

Given the history of these services and the inventory of the licenses being offered in Auction 89, the Bureau believes that an additional default payment percentage of fifteen percent will provide a sufficient deterrent to defaults. The Bureau seeks comment on this proposal.

IV. Ex Parte Rules

57. This proceeding has been designated as a permit-but-disclose proceeding in accordance with the Commission's ex parte rules. Persons making oral ex parte presentations are reminded that memoranda summarizing the presentations must contain summaries of the substance of the presentations and not merely a listing of the subjects discussed. More than a one or two sentence description of the views and arguments presented is generally required. Other rules pertaining to oral and written ex parte presentations in permit-but-disclose proceedings are set forth in 47 CFR 1.1206(b).
