I. Funding Opportunity Description

Purpose of Program: The major purposes of the CSP are to expand opportunities for all students, particularly underserved students, to attend charter schools and meet challenging State academic standards; provide financial assistance for the planning, program design, and initial implementation of public charter schools; increase the number of high-quality charter schools available to students across the United States;

evaluate the impact of charter schools on student achievement, families, and communities; share best practices between charter schools and other public schools; aid States in providing facilities support to charter schools; and support efforts to strengthen the charter authorizing process.

Through the CSP National Dissemination Grants (ALN 84.282T), the Department provides funds on a competitive basis to organizations to support the charter school sector and increase the number of high-quality charter schools available to our Nation's students by disseminating best practices regarding charter schools.

Background: This notice invites applications from organizations (e.g., State educational agencies (SEAs); State charter school boards; State Governors; authorized public chartering agencies; charter school support organizations; and public and private nonprofit organizations that operate, manage, or support charter schools) for grants to disseminate best practices of national significance regarding charter schools, including the development, identification, or expansion of such best practices. This notice contains priorities from the Secretary's Final Supplemental Priorities and Definitions for Discretionary Grant Programs published in the **Federal Register** on December 10, 2021 (86 FR 70612) (Supplemental Priorities) as well as definitions and selection criteria from the Elementary and Secondary Education Act of 1965, as amended (ESEA) and Department regulations.

Priorities: This competition includes three absolute priorities. The absolute priorities are from the Supplemental Priorities.

Absolute Priorities: For FY 2022, and any subsequent year in which we make awards from the list of unfunded applications from this competition, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), we consider only applications that meet one of these priorities. Although a project may address more than one of these priorities, an applicant must clearly identify in its application the specific absolute priority under which it wishes to be considered for funding. These priorities are:

Absolute Priority 1—Addressing the Impact of COVID–19 on Students, Educators, and Faculty.

Projects that are designed to address the impacts of the COVID–19 pandemic, including impacts that extend beyond the duration of the pandemic itself, on the students most impacted by the pandemic, with a focus on underserved students and the educators who serve
