SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(1) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(2) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(3) Ways to enhance the quality, utility, and clarity of the information collected; and

(4) Ways to minimize the information collection burden on those whose are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The Mineral Materials Act of 1947, as amended (Act), 30 U.S.C. 601 and 602, provides for the disposal of mineral materials, such as sand, gravel, and petrified wood from public lands by sale or free use. BLM disposes such materials under the regulations at 43 CFR 3600 and 3610. BLM uses Form 3600-9 to collect information to:

(1) Determine if the sale of mineral materials is in the public interest;

(2) Mitigate the environmental impacts of mineral materials development;

(3) Get fair market value for materials sold; and

(4) Prevent trespass removal of the materials.

Applicants must submit a request in writing to BLM to purchase mineral materials. Specific information requirements are not stated in the regulations, but sale agreements are made on Form 3600-9 approved by BLM.

BLM estimates we process 4,400 contracts for mineral materials each year. We estimate it takes 30 minutes to complete and compile supporting documentation. The estimated total annual information collection burden is 2,200 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: March 29, 2004.
