

demonstrates low mammalian toxicity. Because there was no evidence that offspring were uniquely susceptible to the toxic effects of quinalofop ethyl, an additional 10-fold uncertainty factor should not be required to protect infants and children. Therefore, the RfD of 0.009 mg/kg/day, which utilizes a 100-fold safety factor, is appropriate to assure a reasonable certainty of no harm to infants and children from aggregate exposure to quinalofop ethyl.

F. International Tolerances

Since there are no Mexican or Codex MRLs tolerances, compatibility is not a problem at this time. Compatibility cannot be achieved with the Canadian negligible residue type limit at 0.1 ppm at the United States use pattern, which had findings of real residues above 0.1 ppm.

Napropamide; Notice of Receipt of Requests to Voluntarily Cancel a Certain Pesticide Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of request by United Phosphorous, Inc., to voluntarily cancel one pesticide registration.

DATES: Unless a request is withdrawn by September 24, 2004 for EPA Registration Number: 70506-30, orders will be issued canceling this registration. The Agency will consider withdrawal requests postmarked no later than September 24, 2004.

FOR FURTHER INFORMATION CONTACT: Demson Fuller, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8062; e-mail address: fuller.demson@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPP-2004-0162. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include

Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. What Action is the Agency Taking?

This notice announces receipt by the Agency of an application from the registrant to cancel 70506-30, a pesticide product registered under section 3 of FIFRA. This registration is listed by registration number in Table 1 of this unit:

TABLE 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
70506-30	DEVIRINOL 10-G Ornamental	Napropamide

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary termination of any minor agricultural use before granting the request, unless (1) the

registrants request a waiver of the comment period, or (2) the Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment. The registrants have requested that EPA waive the 180-day comment period. EPA is granting the registrants' request to waive the 180-day comment period. Therefore, EPA will provide a 30-day comment period on the proposed requests. EPA anticipates granting the cancellation request shortly after the end of the 30-day comment period for this notice. The

registration for which a cancellation was requested is identified (above) in Table 1.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, orders will be issued canceling all of this registration. Users of these pesticides or anyone else desiring the retention of a registration should contact the applicable registrant directly during this 30-day period.

Table 2 of this unit includes the name and address of record for the registrant of the product in Table 1 of this unit, by EPA company number:

TABLE 2.—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION

EPA Company No.	Company Name and Address
70506	United Phosphorus, Inc. 423 Riverview Plaza Trenton, NJ 08611

III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before September 24, 2004. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. For purposes of the cancellation order, the term "existing stocks" is defined, pursuant to EPA's existing stocks policy (56 FR 29362, June 26, 1991), as those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions of the forthcoming cancellation order will be as follows:

- i. *Distribution or sale.* It is unlawful for any person to distribute or sell existing stocks of any product identified in Table 1.
- ii. The registrant identified in Table 2 may sell and distribute existing stocks

of their own products until 1 year from the effective date of the cancellation order.

iii. Any person may ship such existing stocks for the purpose of export consistent with FIFRA section 17 or for proper disposal in accordance with applicable law.

Pesticides; Implementation of Globally Harmonized System; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: EPA is issuing for comment a White Paper entitled, *The Globally Harmonized System of Classification and Labelling of Chemicals: Implementation Planning Issues for the Office of Pesticide Programs*. This document describes the background and context of the international Globally Harmonized System (GHS) for chemical hazard classification and labeling. Further, the document describes EPA's proposed approach to implementing this system for pesticide products that are registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). The Agency is also making available a side-by-side comparison document summarizing current hazard classification and labeling policies and the corresponding elements of the GHS.

When implemented, the GHS will increase international consistency in hazard classification and labeling for pesticide and other chemical products. EPA believes that such consistency will promote greater clarity and understanding of the hazards of pesticide products, thereby reducing potential hazardous exposures and adverse effects from use, without reducing benefits to users or imposing burdens on the pesticide industry.

DATES: Comments, identified by docket identification (ID) number OPP–2004–0205, must be received on or before October 25, 2004.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.
