

authority to act for the petitioners/requestors with respect to that contention.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing. Since the Commission has made a final determination that the amendment involves no significant hazards consideration, if a hearing is requested, it will not stay the effectiveness of the amendment. Any hearing held would take place while the amendment is in effect.

A request for a hearing or a petition for leave to intervene must be filed by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; (2) courier, express mail, and expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff; (3) e-mail addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, HearingDocket@nrc.gov; or (4) facsimile transmission addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC, Attention: Rulemakings and Adjudications Staff at (301) 415-1101, verification number is (301) 415-1966. A copy of the request for hearing and petition for leave to intervene should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and it is requested that copies be transmitted either by means of facsimile transmission to (301) 415-3725 or by e-mail to OGCMailCenter@nrc.gov. A copy of the request for hearing and petition for leave to intervene should also be sent to the attorney for the licensee.

Nontimely requests and/or petitions and contentions will not be entertained absent a determination by the Commission or the presiding officer or the Atomic Safety and Licensing Board that the petition, request and/or the contentions should be granted based on a balancing of the factors specified in 10 CFR 2.309(a)(1)(I)-(viii).

STP Nuclear Operating Company, Docket No. 50-498, South Texas Project, Unit 1, Matagorda County, Texas

Date of amendment request: January 6, 2005.

Description of amendment request: The amendment revises Technical Specification (TS) 3.7.4, "Essential

Cooling Water System," and the associated TS for systems supported by the Essential Cooling Water (ECW), to extend the allowed outage time for an additional 7 days for ECW Train B as a one-time change for the purpose of making repairs to the Train B ECW pump.

Date of issuance: January 10, 2005.

Effective date: Effective as of the date of issuance and shall be implemented immediately.

Amendment No.: 169.

Facility Operating License No. NPF-76: Amendment revises the technical specifications.

Public comments requested as to proposed no significant hazards consideration (NSHC): No.

The Commission's related evaluation of the amendment, finding of emergency circumstances, state consultation, and final NSHC determination are contained in a safety evaluation dated January 10, 2005.

Attorney for licensee: A.H. Gutterman, Morgan, Lewis & Bockius, 1111 Pennsylvania Avenue, NW., Washington, DC 20004.

NRC Section Chief: Michael K. Webb, Acting.

Dated at Rockville, Maryland, this 24th day of January 2005.

For the Nuclear Regulatory Commission.

Ledyard B. Marsh,

Director, Division of Licensing Project Management Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Notice of Availability of Draft NUREG-1800, Revision 1; "Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants" and Draft NUREG-1801, Revision 1; "Generic Aging Lessons Learned (GALL) Report"

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Issuance of draft NUREG-1800 "Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants" and draft NUREG-1801, "Generic Aging Lessons Learned (GALL) Report" for public comment; and announcement of public workshop.

SUMMARY: The NRC staff is issuing drafts of the revised NUREG-1800; "Standard Review Plan for License Renewal Applications for Nuclear Power Plants" (SRP-LR); and the revised NUREG-

1801, "Generic Aging Lessons Learned (GALL) Report" for public comment. These revised documents describe methods acceptable to the NRC staff for implementing the license renewal rule, Title 10, Code of Federal Regulations part 54 (10 CFR part 54), as well as techniques used by the NRC staff in evaluating applications for license renewals. The NRC is also announcing a public workshop to facilitate gathering public comments on the drafts of these revised documents. These draft documents supersede the preliminary draft documents that were publicly announced and placed on the NRC's Web site at <http://www.nrc.gov/reactors/operating/licensing/renewal/guidance/updated-guidance.html> on September 30, 2004. The NRC is especially interested in stakeholder comments that will improve the safety, effectiveness, and efficiency of the license renewal process.

DATES: Comments may be submitted on revised SRP-LR and the draft GALL Report, accompanied by supporting data, by March 30, 2005. Comments received after this date will be considered, if it is practical to do so, but the NRC staff is able to ensure consideration only for comments received on or before this date. A public workshop is planned for March 2, 2005, at NRC's headquarters and is announced on the NRC's Web site at <http://www.nrc.gov/public-involve/public-meetings/meeting-schedule.html>.

ADDRESSES: Written comments may be submitted to: Chief Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC, 20555-0001. Comments should be delivered to: 11545 Rockville Pike, Rockville, Maryland, Room T-6D59, between 7:30 a.m. and 4:15 p.m. on Federal workdays. Comments may also be provided via e-mail at NRCREP@NRC.GOV. The NRC maintains an Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff at 1-800-397-4209, or 301-414-4737, or by e-mail to pdr@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Jerry Dozier, License Renewal Project

Manager, Office of Nuclear Reactor Regulation, Mail Stop O-11F1, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone 301 415-1014, or e-mail jxd@nrc.gov.

SUPPLEMENTARY INFORMATION:

Draft Standard Review Plan for License Renewal

The NRC staff proposes to revise the July 2001 version of NUREG-1800, "Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants" (SRP-LR). The SRP-LR provides guidance to NRC staff reviewers in performing safety reviews of applications to renew licenses of nuclear power plants in accordance with the license renewal rule. The draft SRP-LR is under ADAMS Accession number ML050190137. The SRP-LR is being revised to incorporate lessons learned from the review of a number of previous license renewal applications, as well as to make changes corresponding to the update of the GALL Report. The draft SRP-LR contains four major chapters: (1) Administrative Information; (2) Scoping and Screening Methodology for Identifying Structures and Components Subject to Aging Management Review, and Implementation Results; (3) Aging Management Review Results; and (4) Time-Limited Aging Analyses. In addition, three Branch Technical Positions are in an Appendix to the SRP-LR.

Draft Generic Aging Lessons Learned Report, Revision 1

The Generic Aging Lessons Learned (GALL) Report, Revision 1, is an update to the July 2001 version; the report format is largely unchanged. The GALL Report Volumes 1 and 2 are available under ADAMS accession number ML050270004 and ML050270052, respectively. The adequacy of the generic aging management programs in managing certain aging effects for particular structures and components will continue to be evaluated based on the review of the following ten program elements: (1) Scope of program, (2) preventive actions, (3) parameters monitored or inspected, (4) detection of aging effects, (5) monitoring and trending, (6) acceptance criteria, (7) corrective actions, (8) confirmation process, (9) administrative controls, and (10) operating experience. The GALL Report is a technical basis document for the SRP-LR and should be treated in the same manner as an approved topical report that is applicable generically.

Solicitation of Comments

The comments should include supporting justification in enough detail for the NRC staff to evaluate the need for changes in the guidance, as well as references to the operating experience, industry standards, or other relevant reference materials that provide a sound technical basis for such changes. The NRC is also interested in comments that will improve the clarity of the documents so that the improved guidance will provide a stable and predictable evaluation standard for future renewal applications. Editorial and style comments are not necessary because we expect that the guidance documents will need to be reformatted and edited before they are issued in final form.

Questions for Public Comments

Although the NRC invites public comments on all information contained in these draft documents, responses to the following question are particularly solicited.

The GALL Report evaluates many existing programs for their adequacy to manage aging for license renewal. The license renewal guidance documents reference plant-specific aging management programs (AMP) when it is not clear if an appropriate widely-used (generic) AMP is available. Are there alternative generic AMPs that can be substituted for the plant-specific evaluations that are still referenced in Chapters II-VIII of the GALL Report? The commenter should provide justification to support any suggestions.

Public Workshop

A public workshop is scheduled during the public comment period. Scheduled for March 2, 2005, this workshop will be held in the Commissioners' Hearing Room, O-1G16, at OWFN, the NRC headquarters. The formal meeting notice is available at <http://www.nrc.gov/public-involve/public-meetings/meeting-schedule.html>. It is anticipated that the workshop will provide the participants an opportunity to obtain further information, to ask questions, to make comments to add to the discussion, or otherwise to facilitate the public in formulating and preparing written comments for NRC staff consideration on these revised license renewal guidance documents. To ensure that all of the ideas raised are recorded, the workshop will be transcribed and the NRC staff will prepare a summary report to categorize the comments.

Dated at Rockville, Maryland, this 27th day of January 2005.

For the Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Program Director, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

PENSION BENEFIT GUARANTY CORPORATION

Submission of Information Collections for OMB Review; Comment Request; Multiemployer Plan Regulations

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of request for extension of OMB approval.

SUMMARY: The Pension Benefit Guaranty Corporation (PBGC) is requesting that the Office of Management and Budget (OMB) extend approval, under the Paperwork Reduction Act, of collections of information in the PBGC's regulations on multiemployer plans under the Employee Retirement Income Security Act of 1974 (ERISA). This notice informs the public of the PBGC's request and solicits public comment on the collections of information.

DATES: Comments must be submitted by March 3, 2005.

ADDRESSES: Comments should be mailed to the Office of Information and Regulatory Affairs of the Office of Management and Budget, Attention: Desk Officer for Pension Benefit Guaranty Corporation, Washington, DC 20503. Copies of the request for extension (including the collections of information) may be obtained without charge by writing to or visiting the PBGC's Communications and Public Affairs Department, suite 240, 1200 K Street, NW., Washington, DC 20005-4026, or calling 202-326-4040. (TTY and TDD users may call 800-877-8339 and request connection to (202) 326-4040). The regulations on multiemployer plans can be accessed on the PBGC's Web site at <http://www.pbgc.gov>.

FOR FURTHER INFORMATION CONTACT:

Deborah C. Murphy, Attorney, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005-4026, (202) 326-4024. (For TTY/TDD users, call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to (202) 326-4024.)
