## NUCLEAR REGULATORY COMMISSION

**[Docket No. 30-35594-CivP, ASLBP No. 03-811-02-CivP, EA 02-072]**

### Atomic Safety and Licensing Board; Notice of Hearing

April 30, 2003.

*Before Administrative Judges:* Thomas S. Moore, Chairman, Dr. Charles N. Kelber, Dr. Peter S. Lam. In the Matter of Advanced Medical Imaging and Nuclear Services (Easton, Pennsylvania); Order Imposing Civil Monetary Penalty.

This proceeding involves a proposed civil penalty of \$43,200 sought to be imposed by the Nuclear Regulatory Commission on Advanced Medical Imaging and Nuclear Services (Licensee), for alleged violations of provisions of its license and the Commission's regulations. In response to an Order Imposing a Civil Monetary Penalty, dated February 19, 2003 and published at 68 FR 10049 (Mar. 3, 2003), the Licensee on March 24, 2003 filed a timely request for an enforcement hearing. Thereafter, on April 8, 2003, this Atomic Safety and Licensing Board was established to preside over the hearing. See 68 FR 17969 (Apr. 14, 2003).

Notice is hereby given that by Order dated April 30, 2003, the Atomic Safety and Licensing Board has granted the request for a hearing submitted by the Licensee. This proceeding will be conducted under the Commission's hearing procedures set forth in 10 CFR part 2, subparts B and G. Parties to the proceeding are Advanced Medical Imaging and Nuclear Services and the NRC Staff. The issues to be considered, as set forth in the Order Imposing a Civil Monetary Penalty, are (a) whether the Licensee was in violation of the Commission's requirements as set forth in violations B and C of the written notice of violation and proposed imposition of civil penalty served upon the Licensee by letter dated October 22, 2002; and (b) whether, on the basis of such violations, and the additional

violations set forth in the notice of violation that the Licensee admitted, the Order Imposing a Civil Monetary Penalty should be sustained.

Except to the extent an early settlement or other circumstance renders them unnecessary, the Licensing Board may, during the course of this proceeding, conduct one or more prehearing conferences and evidentiary hearing sessions. The time and place of these sessions will be announced in Licensing Board Orders.

For the Atomic Safety and Licensing Board.

Dated in Rockville, Maryland, on April 30, 2003.

## NUCLEAR REGULATORY COMMISSION

**[Docket Nos. (as shown in Attachment 1); License Nos. (as shown in Attachment 1); EA-03-038]**

### All Operating Power Reactor Licensees; Order Modifying Licenses (Effective Immediately)

The licensees identified in Attachment 1 to this Order hold licenses issued by the U.S. Nuclear Regulatory Commission (NRC or Commission) authorizing operation of nuclear power plants in accordance with the Atomic Energy Act of 1954 and Title 10 of the *Code of Federal Regulations* (10 CFR) part 50. Commission regulations at 10 CFR 50.54(p)(1) require these licensees to maintain safeguards contingency plan procedures in accordance with 10 CFR part 73, Appendix C. Specific safeguards requirements for reactors are contained in 10 CFR 73.55.

On September 11, 2001, terrorists simultaneously attacked targets in New York, NY, and Washington, DC, utilizing large commercial aircraft as weapons. In response to the attacks and intelligence information subsequently obtained, the Commission issued a number of Safeguards and Threat Advisories to its licensees in order to strengthen licensees' capabilities and readiness to respond to a potential attack on a nuclear facility. On February 25, 2002, the Commission issued Orders to the licensees of operating power reactors to put the actions taken in response to the Advisories in the established regulatory framework and to implement additional security enhancements which emerged from the NRC's ongoing comprehensive security review.
