PHMSA has received the following special permit request:

Docket No.	Requester	Regulation(s) affected	Nature of special permit
PHMSA-2010-0041	Williams Gas Pipeline Company, LLC (WGP).	49 CFR 192.150	To authorize the extension of a special permit issued to WGP on June 10, 2011, from its current expiration date of June 10, 2014 to December 31, 2014. PHMSA issued the June 10, 2011 special permit to WGP to waive compliance from Federal Regulations in 49 CFR 192.150 for one (1) segment of natural gas transmission pipeline, the Transcontinental Gas Pipe Line (Transco) Mainline "A" located in Chester County, Pennsylvania. The Federal pipeline safety regulations in 49 CFR 192.150 require that new transmission pipelines or replacement components of a transmission line be designed and constructed to accommodate the passage of instrumented internal inspection devices. This includes the replacement of line pipe, valves, fittings, or other pipeline components. The current configuration of the pipeline does not allow passage of commercially available internal inspection devices and, as a result, the pipeline is not in compliance with PHMSA regulations. The special permit would allow WGP to replace an approximate 2,100-foot segment of 30-inch pipeline with a 42-inch diameter pipeline at the Brandywine Creek, in Chester County, Pennsylvania. The 42-inch replacement pipeline would accommodate internal inspection devices.

Docket No.	Requester	Regulation(s) affected	Nature of special permit
			<p>On August 8, 2012, WGP submitted an application to the Federal Energy Regulatory Committee (FERC) for a Certificate of Public Convenience and Necessity. WGP experienced delays during this project with approvals from FERC and the Pennsylvania Department of Environmental Protection (PADEP). FERC issued the requested certificate on July 18, 2013.</p> <p>On August 8, 2013, PADEP granted WGP an extension valid through December 31, 2015. With the other extensions in place WGP requested that PHMSA extend its special permit date to December 31, 2014. PHMSA's extension would allow the revised construction project schedule to begin on March 3, 2014, with a targeted completion date of December 31, 2014.</p>
