SUPPLEMENTARY INFORMATION

Title: Marketing Order Regulating the Handling of Spearmint Oil Produced in the Far West, M.O. No. 985.

OMB Number: 0581-0065.

Expiration Date of Approval: February 29, 2004.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: Marketing order programs provide an opportunity for producers of fresh fruits, vegetables and specialty crops, in a specified production area, to work together to solve marketing

problems that cannot be solved individually. Order regulations help ensure adequate supplies of high quality product and adequate returns to producers. Under the Agricultural Marketing Agreement Act of 1937 (Act), as amended (7 U.S.C. 601-674), industries enter into marketing order programs. The Secretary of Agriculture is authorized to oversee the order operations and issue regulations recommended by a committee of representatives from each commodity industry.

The information collection requirements in this request are essential to carry out the intent of the Act and to administer the program, which has operated since 1980.

The Far West spearmint marketing order regulates the handling of spearmint oil produced in the Far West (Washington, Idaho, Oregon, and designated parts of Nevada and Utah), hereinafter referred to as the "order." The order authorizes the issuance of allotment provisions for producers and regulates the quantities of spearmint oil handled. The order also has research and development authority.

The order, and rules and regulations issued thereunder, authorize the Spearmint Oil Administrative Committee (Committee), the agency responsible for local administration of the order, to require handlers and producers to submit certain information regarding spearmint production. Much of this information is compiled in aggregate and provided to the industry to assist in marketing decisions. Forms are utilized throughout the year. The marketing year for the order is June 1 through May 31, with production occurring in the months of June through September.

The Committee has developed forms which must be filed by handlers to provide information to the Committee relating to spearmint production volume, shipments, dispositions, and other information as may be needed to effectively carry out the purpose of the Act and order. Producers also provide certain production information to the Committee. Another form must be submitted to the Secretary by each nominee who wishes to serve on the Committee. The nominee would provide information showing why he or she is qualified to serve on the Committee. Two ballot forms may be used in referenda conducted by the Secretary. One would ascertain whether producers support continuation of the order. Another ballot may be used to determine whether producers support amendments to the order. If the order is amended, handlers would be asked to

sign an agreement to indicate their willingness to abide by the new or amended provisions of the order.

The forms covered under this information collection require the minimum information necessary to effectively carry out the requirements of the order. Their use is necessary to fulfill the intent of the Act as expressed in the order, and the rules and regulations issued under the order.

The information collected is used only by authorized representatives of the USDA, including AMS, Fruit and Vegetable Programs' regional and headquarters staff, and authorized employees of the Committee. Authorized Committee employees and the industry are the primary users of the information, and AMS is the secondary user.

Estimate of Burden: The public reporting burden for this collection of information is estimated to average .12 hours (7 minutes) per response.

Respondents: Far West Spearmint producers and handlers and two public members in the production area.

Estimated Number of Respondents: 195.

Estimated Number of Responses per Respondent: 6.

Estimated Total Annual Burden on Respondents: 142 hours.

Comments: Comments are invited on: (1) Whether the proposed collection of the information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments should reference OMB No. 0581-0065 and the Spearmint Marketing Order No. 985, and be mailed to Docket Clerk, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, Washington, DC 20250-0237; Fax (202) 720-8938; or E-mail: moab.docketclerk@usda.gov. Comments should reference the docket number and the date and page number of this issue of the **Federal Register**. All comments received will be available for public inspection in the Office of the Docket Clerk during regular USDA business hours at 1400 Independence

Ave., SW., Washington, DC 20250. All comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.ams.usda.gov/fv/moab.html>.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: June 25, 2003.

Animal and Plant Health Inspection Service

[Docket No. 01-009-5]

Wildlife Services; Availability of a Supplemental Environmental Assessment and Decision/Finding of No Significant Impact for Oral Rabies Vaccine Program

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: We are advising the public that we have prepared a June 2003 supplemental environmental assessment and decision/finding of no significant impact relative to oral rabies vaccination programs in several States. Since the publication of our original environmental assessment and decision/finding of no significant impact and a subsequent supplemental decision/finding of no significant impact, we have determined there is a need to expand the oral rabies vaccine program to include the States of Georgia and Maine to effectively stop the westward and northward spread of the rabies virus across the United States and into Canada. The purpose of the supplemental environmental assessment and decision/finding of no significant impact is to facilitate planning, interagency coordination, and program management and to provide the public with our analysis of potential individual and cumulative impacts of an expanded oral rabies vaccine program.

DATES: We will consider all comments that we receive on or before July 30, 2003. Unless new substantial issues bearing on the effects of the proposed

expansion of the oral rabies vaccine programs are brought to our attention, the new decision/finding of no significant impact will take effect upon the close of the comment period.

ADDRESSES: You may submit comments by postal mail/commercial delivery or by e-mail. If you use postal mail/commercial delivery, please send four copies of your comment (an original and three copies) to: Docket No. 01-009-5, Regulatory Analysis and Development, PPD, APHIS, Station 3C71, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. 01-009-5. If you use e-mail, address your comment to regulations@aphis.usda.gov. Your comment must be contained in the body of your message; do not send attached files. Please include your name and address in your message and "Docket No. 01-009-5" on the subject line.

To obtain copies of any of the documents discussed in this notice, contact Tara Wilcox, Operational Support Staff, Wildlife Services, APHIS, 4700 River Road Unit 87, Riverdale, MD 20737-1234; phone (301) 734-7921, fax (301) 734-5157, or e-mail: Tara.C.Wilcox@aphis.usda.gov.
