

railroad police officers must obtain concurrence from the relevant state interoperability coordinator or regional planning committee before applying for a license to the Federal Communications Commission or operating on the interoperability and mutual aid channels.

(1) Railroad police officer means a peace officer who is commissioned in his or her state of legal residence or state of primary employment and employed, full or part time, by a railroad to enforce state laws for the protection of railroad property, personnel, passengers, and/or cargo.

(2) Commissioned means that a state official has certified or otherwise designated a railroad employee as qualified under the licensing requirements of that state to act as a railroad police officer in that state.

(3) Property means rights-of-way, easements, appurtenant property, equipment, cargo, facilities, and buildings and other structures owned, leased, operated, maintained, or transported by a railroad.

(4) Railroad means each class of freight railroad (*i.e.* Class I, II, III); Amtrak, Alaska Railroad, commuter railroads and passenger transit lines.

(5) The word state, as used herein, encompasses states, territories and the District of Columbia.

(B) Eligibility for licensing on the 700 MHz narrowband interoperability channels is restricted to entities that have as their sole or principal purpose the provision of public safety services.

To effectively implement the provisions of the new Rule, no other modifications to existing FCC rules are required. The changes are intended to simplify the licensing process for railroad police officers and ensure interoperable communications. The modified rules provide a benefit to public safety licensees by ensuring that only railroad police officers with appropriate governmental authorization can operate on the interoperability and mutual aid channels during emergencies. This will provide the additional benefit of promoting interoperability with railroad police officers by eliminating eligibility as a gating factor when licensing spectrum. The *Report and Order* reduces the burden on railroad police by allowing them to meet eligibility standard by requiring employers of railroad police officers to obtain concurrence from the relevant state interoperability coordinator or regional planning committee before applying for a license to the Federal Communications Commission or operating on the interoperability and mutual aid

channels. Compliance with this requirement is already a requisite for public safety eligibility to use the interoperability and mutual aid channels, consequently any new burden imposed by this requirement would be minimal.

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer.

GENERAL SERVICES ADMINISTRATION

[Notice BSC–RPM–2023–04; Docket No. BSC–RPM–2023–0002; Sequence 1]

Business Standards Council Review of Real Property Management Federal Integrated Business Framework Draft Service Measures: Request For Public Comment

AGENCY: Office of Government-wide Policy; General Services Administration, (GSA).

ACTION: Request for public comment.

SUMMARY: This notice informs the public of the opportunity to provide input on the proposed real property management service measures that have been created in support of Federal shared services. This input will be used in the formulation of business standards for Federal real property management.

DATES: *Comments due:* Interested parties should submit comments by the method outlined in the **ADDRESSES** section immediately below on or before April 7, 2023.

ADDRESSES: Submit comments in response to Notice BSC–RPM–2023–04 by *Regulations.gov*: <http://www.regulations.gov>. Submit comments using the Federal eRulemaking portal by searching for “Notice BSC–RPM–2023–04.” Select the link “Comment Now” that corresponds with “Notice BSC–RPM–2023–04.” Follow the instructions provided at the screen. Please include your name, company name (if any), and “Notice BSC–RPM–2023–04” on your attached document.

• **Instructions:** Please submit comments only and cite “Notice BSC–RPM–2023–04” in all correspondence related to this notice. Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal or business confidential information, or both, provided. To confirm receipt of your comment(s), please check <http://www.regulations.gov>

approximately two to three business days after submission to verify posting.

FOR FURTHER INFORMATION CONTACT:

Chris Coneeney, Director, Real Property Policy Division, at 202–208–2956, or by email at chris.coneeney@gsa.gov.

SUPPLEMENTARY INFORMATION: On April 26, 2019, the Office of Management and Budget (OMB) published OMB memorandum M–19–16, “Centralized Mission Support Capabilities for the Federal Government” (available at <https://www.whitehouse.gov/wp-content/uploads/2019/04/M-19-16.pdf>). Mission support business standards, established and agreed to by the Chief Financial Officer Act agencies, using the Federal Integrated Business Framework website at <https://ussm.gsa.gov/fibf/>, enable the Federal Government to better coordinate on the decision-making needed to determine what mission support services can be adopted and commonly shared. These business standards are an essential first step towards agreement on outcomes, data, and cross-functional end-to-end processes that will drive economies of scale and leverage the government’s buying power. The business standards will be used as the foundation for common mission support services shared by the CFO Act agencies.

GSA serves as the real property management business standards lead on the Business Standards Council. The goal of the real property management business standards is to drive real estate management consistency, equity, and standardization across the Federal Government.

GSA is seeking public feedback on these draft service measures, including comments on the understandability of the standards, suggested changes, and usefulness of the draft standards to industry and agencies.

Guiding questions in the standards development include:

- Do the draft business standards appropriately document the business processes covered?
- Are the draft business standards easy to understand?
- Will your organization be able to show how your solutions or services, or both, can meet these draft business standards?
- What would you change about the draft business standards? Is there anything missing?

Comments will be used in the formulation of the final real property management business standards.

Krystal J. Brumfield,

Associate Administrator, Office of Government-wide Policy, General Services Administration.

SUPPLEMENTARY INFORMATION:

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines which have been promulgated by the Department of Health and Human Services (HHS) as a final rule, advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule, advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program, and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC.

The Advisory Board's charter was issued on August 3, 2001, renewed at appropriate intervals, and rechartered under Executive Order 13889 on March 22, 2022, and will terminate on March 22, 2024.

Purpose: This Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their
