

conditions will remain strong. Inflation on a 12-month basis is expected to move up in coming months and to stabilize around the Committee's 2 percent objective over the medium term. Near-term risks to the economic outlook appear roughly balanced, but the Committee is monitoring inflation developments closely.

In view of realized and expected labor market conditions and inflation, the Committee decided to raise the target range for the federal funds rate to 1½ to 1¾ percent. The stance of monetary policy remains accommodative, thereby supporting strong labor market conditions and a sustained return to 2 percent inflation. A Federal Reserve Implementation note released simultaneously with the announcement stated that:

The Board of Governors of the Federal Reserve System voted unanimously to raise the interest rate paid on required and excess reserve balances to 1.75 percent, effective March 22, 2018.

As a result, the Board is amending § 204.10(b)(5) of Regulation D to change IORR to 1.75 percent and IOER to 1.75 percent.

### III. Administrative Procedure Act

In general, the Administrative Procedure Act ("APA")<sup>7</sup> imposes three principal requirements when an agency promulgates legislative rules (rules made pursuant to congressionally delegated authority): (1) Publication with adequate notice of a proposed rule; (2) followed by a meaningful opportunity for the public to comment on the rule's content; and (3) publication of the final rule not less than 30 days before its effective date. The APA provides that notice and comment procedures do not apply if the agency for good cause finds them to be "unnecessary, impracticable, or contrary to the public interest."<sup>8</sup> Section 553(d) of the APA also provides that publication at least 30 days prior to a rule's effective date is not required for (1) a substantive rule which grants or recognizes an exemption or relieves a restriction; (2) interpretive rules and statements of policy; or (3) a rule for which the agency finds of good cause for shortened notice and publishes its reasoning with the rule.<sup>9</sup>

The Board has determined that good cause exists for finding that the notice, public comment, and delayed effective date provisions of the APA are unnecessary, impracticable, or contrary to the public interest with respect to

these final amendments to Regulation D. The rate increases for IORR and IOER that are reflected in the final amendments to Regulation D were made with a view towards accommodating commerce and business and with regard to their bearing upon the general credit situation of the country. Notice and public comment would prevent the Board's action from being effective as promptly as necessary in the public interest, and would not otherwise serve any useful purpose. Notice, public comment, and a delayed effective date would create uncertainty about the finality and effectiveness of the Board's action and undermine the effectiveness of that action. Accordingly, the Board has determined that good cause exists to dispense with the notice, public comment, and delayed effective date procedures of the APA with respect to these final amendments to Regulation D.

### IV. Regulatory Flexibility Analysis

The Regulatory Flexibility Act ("RFA") does not apply to a rulemaking where a general notice of proposed rulemaking is not required.<sup>10</sup> As noted previously, the Board has determined that it is unnecessary and contrary to the public interest to publish a general notice of proposed rulemaking for this final rule. Accordingly, the RFA's requirements relating to an initial and final regulatory flexibility analysis do not apply.

### V. Paperwork Reduction Act

In accordance with the Paperwork Reduction Act ("PRA") of 1995,<sup>11</sup> the Board reviewed the final rule under the authority delegated to the Board by the Office of Management and Budget. The final rule contains no requirements subject to the PRA.

#### Safety Zone; Lower Mississippi River, New Orleans, LA

**AGENCY:** Coast Guard, DHS.

**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard is establishing a temporary safety zone for all navigable waters on the Lower Mississippi River from mile marker (MM) 94 to MM 95, above Head of Passes. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards created by a fireworks display. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port Sector New Orleans (COTP) or a designated representative.

**DATES:** This rule is effective from 7:30 p.m. through 8:30 p.m. on April 21, 2018.

##### II. Background Information and Regulatory History

On September 14, 2017, the New Orleans Convention Company, Inc. notified the Coast Guard that it would be conducting a fireworks display from 7:30 p.m. through 8:30 p.m. on April 21, 2018 to for the fireworks to be launched from a barge on the Lower Mississippi River at mile marker (MM) 94.5, above Head of Passes (AHP), New Orleans, LA. In response, on December 11, 2017, the Coast Guard published a notice of proposed rulemaking (NPRM) Safety Zone; Lower Mississippi River, New Orleans, LA in 82 FR 58147. There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to this fireworks display. During the comment period that ended on February 9, 2018, we received 0 comments.

##### III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The Captain of the Port Sector New Orleans (COTP) has determined that potential hazards associated with the fireworks to be used in this April 21, 2018 display will be a safety concern for anyone within a one mile stretch of the Lower Mississippi River. The purpose of this rule is to ensure safety of persons and vessels on the navigable waters in the safety zone before, during, and after the scheduled event.

##### IV. Discussion of Comments, Changes, and the Rule

As noted above, we received no comments on our NPRM published on December 11, 2017. There are no changes in the regulatory text of this rule from the proposed rule in the NPRM.

This rule establishes a safety zone from 7:30 p.m. through 8:30 p.m. on April 21, 2018. The safety zone will cover all navigable waters of the Lower Mississippi River between MMs 94 and 95 AHP in New Orleans, LA. The duration of the zone is intended to ensure the safety of vessels and these navigable waters before, during, and after the scheduled fireworks display. No vessel or person would be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. A designated representative is a commissioned, warrant, or petty officer of the U.S. Coast Guard assigned to units under the operational control of USCG Sector New Orleans. Vessels requiring entry into this safety zone must request permission from the COTP or a designated representative. They may be contacted on VHF–FM Channel 16 or 67. Persons and vessels permitted to enter this safety zone must transit at their slowest safe speed and comply with all lawful directions issued by the COTP or the designated representative.

##### V. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and executive orders, and we discuss First Amendment rights of protestors.

##### A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on this rule only encompassing a one mile stretch of the Lower Mississippi River for one hour in the evening.
