40 CFR Part 52

[EPA–R06–OAR–2011–0426; FRL–9442–6]

Approval and Promulgation of Air Quality Implementation Plans; Texas; Revisions to Permits by Rule and Regulations for Control of Air Pollution by Permits for New Construction or Modification

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve portions of three revisions to the Texas State Implementation Plan (SIP) submitted by the State of Texas on August 31, 1993, July 22, 1998, and October 5, 2010. These revisions amend existing sections and create new sections in Title 30 of the Texas Administrative Code (TAC), chapter 116—Control of Air Pollution by Permits for New Construction or Modification. The August 31, 1993, revision creates two new sections at 116.174 and 116.175 for the use of emission reductions as offsets in new source review permitting. The July 22, 1998, revision creates new section 116.116(f) allowing for the use of Discrete Emission Reduction Credits (DERC) to exceed emission limits in permits (permit allowables) and amends

section 116.174 to update internal citations to other Texas regulations. The October 5, 2010, revision amends section 116.116(f) to update internal citations to other Texas regulations. The Commission submitted this amendment to EPA to process as a revision to the Texas SIP. EPA has determined that these SIP revisions comply with the Clean Air Act and EPA regulations, are consistent with EPA policies, and will improve air quality. This action is being taken under section 110 of the Federal Clean Air Act (the Act).

A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated.
