

consistency and persistence.<sup>3</sup> Comments were due March 3, 2023, and reply comments were due March 20, 2023. The Joint Proposal states that the Organizations subsequently worked together to develop solutions to concerns raised in the record, and the result is the Joint Proposal.

Under the Joint Proposal, all accessibility functions would be made available “in one area of the settings . . . accessed via a means reasonably comparable to a button, key, or icon.” There would be consumer testing requirements “[f]or cable service and navigation devices used to access multichannel video programming that cable operators sell or lease,” as well as previewability requirements for cable service. For navigation devices, cable operators would commit to making closed caption display settings available by an application programming interface (API) that an over-the-top application provider could utilize. For a cable operator’s own application on a third-party device, the operator would “respect the operating system-level closed caption settings of the host device upon launch of the app on the device, provided the host device makes those settings available to applications via an API or similar method.” Finally, cable operators would commit to certain training requirements for customer care and support employees. All of these proposals would be “subject to being achievable and technically feasible,” and they would apply “on a going-forward basis” and “after a reasonable implementation period.” While the proposals were framed in terms of NCTA’s cable operator members, the Organizations note that “the proposals could also serve as a model for other MVPDs and equipment manufacturers.”

We believe that the Commission would benefit from further comment on the Joint Proposal, and accordingly, this public notice seeks comment on whether the Commission should adopt the proposed requirements discussed therein. Interested parties should focus their comments on the specific issue of whether, if the Commission adopts rules governing the accessibility of closed captioning display settings, it should adopt the Organizations’ proposals as rules. Although the Joint Proposal was focused on the cable context, should the requirements set forth in the Joint Proposal apply broadly to the devices covered by section 303(u) of the Communications Act of 1934, as amended, and to both manufacturers of

covered apparatus and MVPDs? Commenters should provide any other information relevant to the Commission’s determination of whether and how to adopt the Joint Proposal.

*Initial Regulatory Flexibility Analysis.* The *Second FNPRM* included an Initial Regulatory Flexibility Analysis (IRFA) pursuant to 5 U.S.C. 603, exploring the potential impact on small entities of the Commission’s proposals. The Media Bureau invites parties to file comments on the IRFA in light of this request for further comment.

*Ex Parte Rules.* This matter shall continue to be treated as a “permit-but-disclose” proceeding in accordance with the Commission’s ex parte rules. Persons making ex parte presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral ex parte presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the ex parte presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during ex parte meetings are deemed to be written ex parte presentations and must be filed consistent with rule 1.1206(b). In proceedings governed by rule 1.49(f) or for which the Commission has made available a method of electronic filing, written ex parte presentations and memoranda summarizing oral ex parte presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission’s ex parte rules.

*Filing Requirements.* All filings responsive to the public notice must reference MB Docket No. 12–108.

Pursuant to §§ 1.415 and 1.419 of the Commission’s rules, 47 CFR 1.415, 1.419, interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission’s Electronic Comment Filing System (ECFS). See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121 (1998).
