

SUMMARY OF ESTIMATED ANNUAL BURDEN (OMB NO. 3064–0145)—Continued

Information Collection (IC) (obligation to respond)	Type of burden (frequency of response)	Number of respondents	Number of responses per respondent	Time per response (HH:MM)	Annual burden (hours)
Total Annual Burden (Hours)	13,166

Source: FDIC.

General Description of Collection: The Interagency Guidance on Response Programs for Unauthorized Access to Customer Information and Customer Notice describes the Federal banking agencies' expectations regarding a response program, including customer notification procedures, that a financial institution should develop and apply under the circumstances described in the Guidance to address unauthorized access to or use of customer information that could result in substantial harm or

inconvenience to a customer. The Guidance advises financial institutions when and how they might (1) develop notices to customers; (2) in certain circumstances defined in the Guidance, determine which customers should receive the notices; and (3) send the notices to customers. There is no change in the methodology or substance of this information collection. The increase in total estimated annual burden from 11,580 hours in 2022 to 13,166 hours currently is due to an increase in the

estimated number of respondents and more fine-grained estimation of the types of information burden associated with the collection.

3. *Title:* Furnisher Information Accuracy and Integrity (FACTA 312).

General Description of Collection: Section 312 of the Fair and Accurate Credit Transaction Act of 2003 (FACT Act) requires the banking agencies to issue guidelines for furnishers regarding the accuracy and integrity of the information about consumers furnished to consumer reporting agencies; prescribe regulations requiring furnishers to establish reasonable policies/procedures to implement the guidelines; and issue regulations identifying the circumstances where a furnisher must reinvestigate a dispute about the accuracy of information in a consumer report based on a direct request from a consumer. Those guidelines appear in Regulation V, 12 CFR part 1022. There is no change in the method or substance of the collection. The overall increase in burden hours is the result of economic fluctuation. In particular, the number of responses per respondents has increased while the hours per response have remained the same. At the time of publication, the agencies are engaged in a review of all regulatory requirements. To the extent this review leads to amendments to information collected

pursuant to Regulation V, the FDIC will amend this information collection to match.
