

effects on historic properties.⁵ We will define the project-specific Area of Potential Effects (APE) in consultation with the SHPOs as the project develops. On natural gas facility projects, the APE at a minimum encompasses all areas subject to ground disturbance (examples include construction right-of-way, contractor/pipe storage yards, compressor stations, and access roads). Our EIS for this project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Currently Identified Environmental Issues

We have already identified several issues that we think deserve attention based on a preliminary review of the planned facilities, the environmental information provided by Transco, comments received at Transco's open houses, and those comments filed to-date. This preliminary list of issues may change based on your additional comments and our analysis:

- Potential impact of planned Compressor Station 206 on property values, air quality, health, noise, traffic, soil, groundwater, and public safety;
- potential impact on Compressor Station 206 from blasting activity at the Trap Rock Industries, Inc. quarry;
- alternative compressor station locations;
- the potential for the horizontal directional drill method to impact drinking water wells; and
- potential impacts on aquatic resources in Raritan Bay and Lower New York Bay.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we

send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project.

Copies of the completed draft EIS will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version, or would like to remove your name from the mailing list, please return the attached Information Request (appendix 3).

Becoming an Intervenor

Once Transco files its application with the Commission, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Motions to intervene are more fully described at <http://www.ferc.gov/resources/guides/how-to/intervene.asp>. Instructions for becoming an intervenor are in the "Document-less Intervention Guide" under the "e-filing" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until the Commission receives a formal application for the project.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, PF16-5). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the

documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Finally, public meetings/sessions or site visits will be posted on the Commission's calendar located at www.ferc.gov/EventCalendar/EventsList.aspx along with other related information.

Dated: August 24, 2016.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL16-21-000]

C.P. Crane LLC; Notice of Filing

Take notice that on August 24, 2016, C.P. Crane LLC submitted tariff filing per: Refund Report to be effective N/A, pursuant to Section 2.4 of the Offer of Settlement that the Federal Energy Regulatory Commission (Commission) accepted on June 24, 2016.¹

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a

⁵ The Advisory Council on Historic Preservation regulations are at title 36, Code of Federal Regulations, part 800. Those regulations define historic properties as any prehistoric or historic district, site, building, structure, or object included in or eligible for inclusion in the National Register of Historic Places.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9951-65-OA]

Request for Nominations of Experts To Augment the Science Advisory Board Ecological Processes and Effects Committee To Provide Advice on Methods for Deriving Water Quality Criteria for the Protection of Aquatic Life

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA), SAB Staff Office is requesting public nominations of scientific experts to augment the SAB Ecological Processes and Effects Committee (EPEC) for review of a draft EPA document entitled "Scope and Approach for Revising USEPA's Guidelines for Deriving National Water Quality Criteria to Protect Aquatic Life."

DATES: Nominations should be submitted by September 20, 2016 per the instructions below.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Notice and Request for Nominations may contact the Designated Federal Officer, as identified below. Nominators unable to submit nominations electronically as described below may contact the Designated Federal Officer for assistance. General information concerning the EPA SAB can be found at the EPA SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB (42 U.S.C. 4365) is a chartered Federal Advisory Committee that provides independent scientific and technical peer review, advice, consultation, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business

in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations. The SAB Ecological Process and Effects Committee (EPEC) is a subcommittee of the SAB that provides advice through the chartered SAB on technical issues related to EPA environmental programs and the supporting science and research to protect, sustain, and restore the health of ecosystems. The SAB and the EPEC, augmented with additional experts, will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. The augmented EPEC will provide advice through the chartered SAB on scientific and technical issues related to the Agency's proposed methods for revising and updating water quality criteria, as described in the Agency's draft scoping document, entitled "Scope and Approach for Revising USEPA's Guidelines for Deriving National Water Quality Criteria to Protect Aquatic Life." This draft document provides an overview of the framework EPA proposes to use for the phased revision of the 1985 Guidelines for Deriving Numerical Water Quality Criteria for the Protection of Aquatic Organisms and Their Uses by outlining the planned scope and approach of the Guidelines revision process and introducing new and alternative methods to be considered for deriving aquatic life criteria based on the latest and most appropriate science available.

EPA's Office of Water (OW) requested an SAB consultation (*i.e.*, early advice) on their draft approach for updating and revising the EPA's 1985 methodology for deriving national Ambient Water Quality Criteria to protect aquatic life, as described in the draft scoping document. The SAB Staff Office is seeking experts to augment the SAB EPEC for this advisory activity. EPA's OW has also requested reviews of two subsequent and related draft documents: "Draft Expedited Methodologies for Deriving Water Quality Criteria for the Protection of Aquatic Life" and "Draft Revised USEPA Guidelines for Deriving Numeric Water Quality Criteria for the Protection of Aquatic Life." These draft documents are currently scheduled for completion as drafts in late 2017 and mid-2019.

Technical Contact for EPA's Draft Report: For information concerning the draft EPA report, "Scope and Approach for Revising USEPA's Guidelines for Deriving National Water Quality Criteria to Protect Aquatic Life," please contact Mike Elias, Ecological Risk Assessment Branch, Health and Ecological Criteria Division, Office of Water, U.S. EPA, 1200 Pennsylvania Ave. NW.,

Washington, DC 20460, phone (202) 566-0120 or via email at elias.mike@epa.gov.

Request for Nominations: The SAB Staff Office is seeking nominations of nationally and internationally recognized scientists with demonstrated expertise and research to augment the EPEC for the consultation and subsequent reviews of methods for revising Water Quality Criteria. For this effort, the SAB Staff Office seeks experts in one or more of the following areas: Aquatic toxicology; ecotoxicology; aquatic ecology; ecological risk assessment; ecological effects modeling; and statistics, especially as applied to developing robust computational methods for estimating acute and chronic effects of water pollutants on aquatic life and aquatic-dependent wildlife. Additional information about this advisory activity is available on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/1985%20WQ%20Criteria%20Guidelines%20Revision?OpenDocument. Questions regarding this advisory activity should be directed to Iris Goodman, Designated Federal Officer (DFO), SAB Staff Office, by telephone/voice mail at (202) 564-2164, by fax at (202) 565-2098, or via email at goodman.iris@epa.gov.

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals in the areas of expertise described above for possible service on the augmented EPEC panel described above. Nominations should be submitted in electronic format (preferred over hard copy) using the online nomination form under the "Nomination of Experts" category at the bottom of the SAB home page at <http://www.epa.gov/sab>. To receive full consideration, nominations should include all of the information requested below. EPA's SAB Staff Office requests contact information about the person making the nomination; contact information about the nominee; the disciplinary and specific areas of expertise of the nominee; the nominee's resume or curriculum vitae; sources of recent grant and/or contract support; and a biographical sketch of the nominee indicating current position, educational background, research activities, and recent service on other national advisory committees or national professional organizations.

Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB Web site, should contact Iris Goodman as indicated above in this notice. Nominations should be
