

apply as for the original appeal: (1) it must be in writing; (2) it must be sent to a sole decision-maker in the regional office of the region where the restriction originated for review; and (3) it may

accompany supporting documentation. We make this periodic review available to all restricted individuals once every three years. Respondents for this collection are individuals appealing

their restrictions from in-person services at SSA field offices.

Type of Request: Extension of an OMB-approved information collection.

Totals	150	44	** 885

*We based this figure by averaging both the average DI payments based on SSA's current data (<https://www.ssa.gov/legislation/2024FactSheet.pdf>), and the average U.S. worker's hourly wages, as reported by Bureau of Labor Statistics data (https://www.bls.gov/oes/current/oes_nat.htm).

** This figure does not represent actual costs that SSA is imposing on claimants of Social Security payments to complete this application; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the application. *There is no actual charge to respondents to complete the application.*

7. Social Security Administration Health IT Partner Program Assessment—Participating Facilities and Available Content Form—20 CFR 404.1614 and 416.1014—0960-0798. The Health Information Technology for Economic and Clinical Health (HITECH) Act promotes the adoption and meaningful use of health information technology (IT), particularly in the context of working with government agencies. Similarly, Section 3004 of the Public Health Service Act requires health care providers or health insurance issuers with government contracts to implement, acquire, or

upgrade their health IT systems and products to meet adopted standards and implementation specifications. To support expansion of SSA's health IT initiative as defined under HITECH, SSA developed Form SSA-680, the Health IT Partner Program Assessment—participating Facilities and Available Content Form. The SSA-680 allows healthcare providers to provide the information that SSA needs to determine their ability to exchange health information with us electronically. We evaluate potential partners (*i.e.*, healthcare providers and organizations) on: (1) the accessibility of

health information they possess; and (2) the content value of their electronic health records' systems for our disability adjudication processes. SSA reviews the completeness of organizations' SSA-680 responses as one part of our careful analysis of their readiness to enter a health IT partnership with us. The respondents are healthcare providers and organizations exchanging information with the agency.

Type of Request: Revision of an OMB-approved information collection.

*We based these figures on average Healthcare Practitioners and Technical Occupations, as reported by Bureau of Labor Statistics data (<https://www.bls.gov/oes/current/oes290000.htm>).

** This figure does not represent actual costs that SSA is imposing on recipients of Social Security payments to complete this application; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the application. *There is no actual charge to respondents to complete the application.*
