[Docket No. 50-483; NRC-2012-0001]

License Renewal Application for Callaway Plant, Unit 1

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft supplemental generic environmental impact statement; issuance, public meeting, and request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft, plant-specific, Supplement 51 to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, NUREG-1437, regarding the renewal of operating license NPF-30 for an additional 20 years of operation for Callaway Plant, Unit 1 (Callaway). Callaway is located in Callaway County, Missouri. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources. The NRC staff plans to hold two public meetings during the public comment period to present an overview of the draft plant-specific supplement to the GEIS and to accept public comments on the document.

DATES: Submit comments by April 10, 2014. Comments received after this date will be considered, if it is practical to do so, but the NRC staff is able to ensure consideration only for comments received on or before this date.

Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Discussion

The NRC is issuing for public comment a draft plant-specific Supplement 51 to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, regarding the renewal of operating license NPF-30 for an additional 20 years of operation for Callaway. Supplement 51 to the GEIS includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. The NRC's preliminary recommendation is that the adverse environmental impacts of license renewal for Callaway are not great enough to deny the option of license renewal for energy planning decision makers.

III. Public Meetings

The NRC staff will hold public meetings prior to the close of the public comment period to present an overview of the draft plant-specific supplement to the GEIS and to accept public comment on the document. Two meetings will be held at the Fulton City Hall, 18 East 4th Street, Fulton, Missouri 65251 on Wednesday, March 19, 2014. The first session will convene at 2:00 p.m. and will continue until 3:30 p.m., as necessary. The second session will convene at 7:00 p.m. and will continue until 8:30 p.m., as necessary. The meetings will be transcribed and will include: (1) A presentation of the contents of the draft plant-specific supplement to the GEIS, and (2) The opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC staff will host

informal discussions one hour prior to the start of each session at the same location. No comments on the draft supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing. Persons may pre-register to attend or present oral comments at the meeting by contacting Ms. Carmen Fells, the NRC Environmental Project Manager, at 1-800-368-5642, extension 6337, or by email at Carmen.Fells@nrc.gov no later than Monday, March 10, 2014. Members of the public may also register to provide oral comments within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Ms. Fells' attention no later than Monday, March 10, 2014, to provide the NRC staff adequate notice to determine whether the request can be accommodated.

Dated at Rockville, Maryland, this 12th day of February 2014.

For the Nuclear Regulatory Commission.

Chief, Projects Branch 2, Division of License Renewal, Office of Nuclear Reactor Regulation.
