Congressional committees, state agencies responsible for carrying out family caregiver support programs; and the public in an online and accessible format.

Background

The "Supporting Grandparents Raising Grandchildren Act" (SGRG) became law in 2018. It establishes an Advisory Council to identify, promote, coordinate, and disseminate to the public information, resources, the best practices available to help grandparents and other older relatives meet the health, educational, nutritional, and other needs of the children in their care, maintain their own physical and mental health and emotional well-being. In doing so, the Council is to consider the needs of those affected by the opioid crisis and the needs of members of Native American tribes.

The Secretary has assigned responsibility for implementing the Advisory Council to the Administration for Community Living (ACL). ACL has been at the forefront of efforts to support grandparents and other older relatives raising children better meet the health, educational, nutritional and other needs of the children in their care as well as for the maintenance of their own physical and emotional health, and to consider the needs of those affected by the opioid crisis and the needs of members of Native American tribes.

In addition to the Secretary, the Act provides for inclusion as Council members the Secretary of Education, the Administrator of the Administration for Community Living, the Director of the Centers for Disease Control and Prevention, the Assistant Secretary for Mental Health and Substance Use, the Assistant Secretary for the Administration for Children and Families, a grandparent raising a grandchild, an older relative caregiver of children, as appropriate, the head of other Federal departments, or agencies, identified by the Secretary of Health and Human Services as having responsibilities, or administering programs, relating to current issues affecting grandparents or other older relatives raising children.

The Advisory Council is a federal entity charged with identifying, promoting, coordinating, and disseminating to the public information, resources, and the best practices available to help grandparents and other older relatives meet the health, educational, nutritional, and other needs of the children in their care, maintain their own physical and mental health and emotional well-being, and consider the needs of those affected by

the opioid crisis and the needs of members of Native American tribes.
