SUPPLEMENTARY INFORMATION:

Description: The goal of the HTYPE Demonstration Grant Program is to support local educational agencies (LEA) to partner with a nonprofit or Non-Governmental Organization to build the capacity of schools to provide skills-based human trafficking prevention education for educators, other staff, and students, and to establish a Human Trafficking School Safety Protocol (HTSSP) that addresses the safety, security, and well-being of staff and students. Eight HTYPE Demonstration Program project grants were awarded in September 2020, with a period of performance of 36 months.

The purpose of the proposed information collection is to investigate

and document how HTYPE projects approach and accomplish the goals of the HTYPE Demonstration Grant Program, inform ACF’s efforts to support human trafficking prevention education in schools, and inform future evaluation efforts.

The proposed information collection activities include:

(1) One-time, semi-structured interviews or focus groups with trained LEA staff and implementers at select schools from each grant recipient site. Interviews/focus groups will include questions focused on implementation models, participant and implementer engagement, and implementation facilitators and barriers.

(2) One-time, semi-structured interviews with school staff related to the process and implementation of the HTSSP at select schools from each grant recipient site.

(3) One-time web survey with school administrators, which will include questions focused on school context and engagement, training mandates, implementation models, and implementation facilitators and barriers.

(4) One-time web survey with school staff tasked with implementing the HTYPE curriculum, which will include questions focused on educator training, student curriculum implementation models and quality, participant and implementer engagement, and implementation facilitators and barriers.

Respondents: LEA staff who have been involved in the HTYPE demonstration programs, including school leadership/administrators, curriculum implementers, and staff who have received human trafficking training.

In addition to the information required by regulation, the CDCP–UPD will provide a selection of text options for the program offices to communicate the application requirements to the recipients, as required by 45 CFR 75.203.

The CDCP–UPD gathers information regarding the CDCP recipients' identified outcomes, project activities, timeline, organizational capacity, and budget and budget justification. The CDCP–UPD ensures sufficient information is obtained to assess risk, identify needs for technical assistance and monitoring, and address other requirements of Congress, ACF, the Department of Health and Human Services, the Office of Management and Budget, and funding and statutory regulation.
