

- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this Information Collection

1. *Type of Information Collection:* Extension of a currently approved collection.
2. *The Title of the Form/Collection:* Supplemental Statement (Foreign Agents).
3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is NSD–2. The applicable component within the Department of Justice is the Foreign Agents Registration Act (FARA Unit), Counterintelligence and Export Control Section, in the National Security Division.
4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Private Sector, Business or other for-profit, Not-for-profit institutions, and individuals. The form contains Supplemental Statement information used for registering foreign agents under the Foreign Agents Registration Act of 1938, as amended, 22 U.S.C. 611 *et seq.*, (FARA).
5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Based on the projected increases in registrations from 2017 to 2020, an estimated number of responses to the form is 416 @2 responses annually (832) who will complete Form NSD–2 (OMB 1124–0002). Based on sample testing, each respondent will need 1.17 hours to complete the form, which takes into consideration the improved e-File 4.0 webform features. The following factors were considered when creating the burden estimate: The estimated total number of respondents, the intuitive online FARA e-File registration process, and the prior collection of the necessary data to accurately complete the filing. NSD estimates that all of the approximately 416 respondents will fully complete the form.
6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 973.44 annual burden hours. It is estimated that

respondents will take 1.17 hours to complete the form. (416 respondents (2 responses annually) × 1.17 hours = 973.44 annual burden hours).

7. Beginning September 23, 2019, NSD completed its ongoing multi-year design review, testing, and requirements enhancement efforts under the FARA e-File 4.0 initiative to a level where it began to rollout initial capabilities for new registrants only. NSD continues to make progress in enhancing the functionality of FARA e-File and Form NSD–2.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing collection of information in accordance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining said information (29 U.S.C. 657).

The basic purpose of the collection of information in the Asbestos in General Industry Standard (29 CFR 1910.1001) (the Standard) is to document that employers in general industry are
