[Docket No. FAA-2009-1014; Airspace
Docket No. 09-ANM-10]

Amendment of Class E Airspace; Rifle, CO

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action will establish Class E airspace at Rifle, CO. Additional controlled airspace is necessary to accommodate aircraft executing new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAPs) at Garfield County Regional Airport. This will improve the safety of Instrument Flight Rules (IFR) operations at the airport. This action also changes the airport name in the existing Class E airspace description.

DATES: Effective date 0901 UTC, June 3, 2010. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:**History**

On November 27, 2009, the FAA published in the **Federal Register** a notice of proposed rulemaking to establish additional controlled airspace at Rifle, CO (74 FR 62259). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. One comment was received in support of the proposed Class E-2 Airspace.

Class E airspace designations are published in paragraph 6002 and 6005, respectively, of FAA Order 7400.9T signed August 27, 2009, and effective September 15, 2009, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by

amending the Class E airspace for the Rifle, CO, area, by establishing surface airspace to accommodate IFR aircraft executing a new RNAV (GPS) approach procedure at Garfield County Regional Airport, Rifle, CO. This action is necessary for the safety and management of IFR operations at the airport. This will also change the airport name from Garfield County Airport to Garfield County Regional Airport.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 discusses the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes additional controlled airspace at Garfield County Regional Airport, Rifle, CO.

SUPPLEMENTARY INFORMATION: OSHRC published a document in the **Federal Register** on December 7, 2009 setting forth an amendatory instruction that was impossible to carry out.
