

Preservation Office confirm that the sacred object's designs indicate its connection to Chemehuevi Salt Song ceremonies. To our knowledge, no potentially hazardous substances were used to treat the basket.

Determinations

The Virginia Museum of Fine Arts has determined that:

- The one sacred object described in this notice is a specific ceremonial object needed by a traditional Native American religious leader for present-day adherents to practice traditional Native American religion, according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization.
- There is a reasonable connection between the cultural item described in this notice and the Chemehuevi Indian Tribe of the Chemehuevi Reservation, California.

Requests for Repatriation

Additional, written requests for repatriation of the cultural item in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural item in this notice to a requestor may occur on or after June 13, 2025. If competing requests for repatriation are received, the Virginia Museum of Fine Arts must determine the most appropriate requestor prior to repatriation. The Virginia Museum of Fine Arts is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.

Abstract of Information Available

Human remains representing, at least, 17 individuals have been identified. The five lots of associated funerary objects are one lot of shell; one lot of painted wood; one lot of metal; one lot leather or hide; and one lot cloth, wood, and metal.

The human remains and associated funerary objects were excavated from Will County, IL, by George Langford between 1902 and 1913. The AMNH received the remains and associated items as part of two accessions: a gift in 1919 and an exchange in 1920. The exchange is described as having been a continuation of the original 1919 accession. The collection dates to approximately A.D. 800-1400 and the late 17th century.

While it no longer does so, in the past, the Museum applied potentially

hazardous pesticides to items in the collections. Museum records do not list specific objects treated or which of several chemicals used were applied to a particular item. Therefore, those handling this material should follow the advice of industrial hygienists or medical personnel with specialized training in occupational health or with potentially hazardous substances.
