

and/or substance abuse disorders, and the nature of services rendered to these clients.

The reports to be purchased by CSAT will be based on the Associations' surveys of a representative sample of 400 of their members. Practitioners in the sample will abstract demographic and encounter-specific data from two of

their current patients' records. No client identifying information will be collected as part of this study. Data collection methods will include mailed surveys with mailed reminders and follow-up phone calls in order to achieve a target response rate of 80 percent.

This information will complement CSAT's and SAMHSA's existing data

collection efforts and provide a more comprehensive view of the populations in need of services, the prevalence of substance abuse and mental health comorbidities, and the qualifications and training of private practitioners who serve these clients.

The burden estimates are summarized in the following table.

Estimated number of respondents	Responses per respondent	Estimated completion time (hours)	Total burden hours
1,600	1	.33	532

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project

National Outcomes Performance Assessment of the Collaborative Initiative to Help End Chronic Homelessness—New—This Initiative is coordinated by the U.S. Interagency Council on the Homeless and involves the participation of three Council members: the Department of Housing and Urban Development (HUD), the Department of Health and Human Services (HHS), and the Department of Veterans Affairs (VA). Within HHS, SAMHSA's Center for Mental Health Services is the lead agency.

This project will monitor the implementation and effectiveness of the Initiative. A national assessment of client outcomes is needed to assure a high level of accountability and to identify which models work best for which people, using the same methods for all sites. To this end, this project will provide a site-by-site description of program implementation, as well as descriptive information on clients served; services received; housing quality, stability, and satisfaction; and client outcomes in health and functional domains. The VA Northeast Program Evaluation Center (NEPEC), based at the VA Connecticut Healthcare System in West Haven, Connecticut, will be responsible for conducting this project.

Data collection will be conducted over a 36-month period. At each site, a series of measures will be used to assess (1) program implementation (e.g., number and types of housing units produced and intensity and types of treatment and supportive services provided), (2) client descriptive information (e.g., demographic and clinical characteristics, and housing and treatment services received) and, (3) client outcomes.

Client outcomes will be measured using a series of structured instruments administered by evaluation personnel employed and funded by the local VA medical center or outpatient clinic involved at each Initiative site who will

work closely with central NEPEC staff. Assessments will be conducted through face-to-face interviews and, when needed, telephone interviews. Interviews (approximately one hour in length) will be conducted at baseline, defined as the date of entry into the clinical treatment program leading to placement into permanent housing, and quarterly (every 3 months) thereafter for up to three years. Discharge data will be collected from program staff at the time of official discharge from the program, or when the client has not had any clinical contact from members of the program staff for at least 6 months. In addition to client interviews, key informant interviews with up to 15 program managers at each site will be conducted annually.

At most Initiative sites, it is expected that more people will be screened and/or evaluated for participation in the program than receive the full range of core housing and treatment services. We have conceptualized entry into the Initiative as a two-phase process involving an Outreach/Screening/Assessment Phase (Phase I), and an Active Housing Placement/Treatment Phase (Phase II) that is expected to lead to exit from homelessness. In some programs these two phases may be described as the Outreach and Case Management Phases. It will be important to have at least some minimal information on all clients so as to be able to compare those who enter Housing/Treatment with those who do not.

Client-level data at the time of first contact with the program (i.e., before the client receives more intensive treatment or housing services) will be collected using a screener form. The screener form will be completed by the Evaluation assistant or member of the clinical staff when prospective clients are first told about the program, and express interest in participating in the program (i.e., when they enter Phase I). The purpose of this form is to identify the sampling frame of the evaluation at

each site, or the pool of potential clients from which clients are then selected. Program implementation will be measured using a series of progress summaries.

Initiative sites will be responsible for screening potential participants, assessing homeless and disabling condition eligibility criteria for the program, and documenting eligibility as

part of the national performance assessment. Each site will identify a limited number of portals of entry into the program in a relatively small geographic area, so that the evaluator can practically and systematically contact clients about participating in the evaluation. VA evaluation staff, clinical program staff, and NEPEC will work together to establish systematic

procedures for assessing eligibility, enrolling clients into the Housing/Treatment Activity of the Initiative, obtaining written informed consent to participate in the national performance assessment, and other evaluation activities.

The estimated response burden to collect this information is as follows:

Instrument	No. of respondents	Responses/ respondent	Burden/ response (hrs)	Total burden (hrs)
Client screener (completed by program staff)	10	300	0.083	249
Client baseline interview	1,200	1	1.00	1,200
Client followup interviews	1,200	11	0.67	8,844
Client discharge form (completed by program staff)	10	120	0.083	100
Key informant interviews with site program managers	108	3	1.00	324
Total	1,318	10,717
3-Year annual average	1,318	3,572

Port Pelican LLC Deepwater Port License Application; Preparation of Environmental Impact Statement

AGENCY: Coast Guard, DHS, and Maritime Administration, DOT.

ACTION: Notice of intent and request for public comments.

SUMMARY: The U.S. Coast Guard and the Maritime Administration (MARAD) announce their intent to prepare an environmental impact statement (EIS) for the project described in the Port Pelican LLC Deepwater Port License Application. The plan description in the license application calls for construction of a liquefied natural gas (LNG) Deepwater Port known as "Port Pelican" and associated anchorage in

the Gulf of Mexico, approximately 36 miles south southwest of Fresh Water City, Louisiana, located in Outer Continental Shelf (OCS) Block Vermillion 140. Port Pelican would deliver natural gas to the U.S. Gulf Coast using existing gas supply and gathering systems in the Gulf of Mexico and southern Louisiana. Gas would then be delivered to shippers using the national pipeline grid through interconnections with major interstate and intrastate pipelines. The Coast Guard seeks public and agency input on the scope of the EIS. Specifically, the Coast Guard requests input on any environmental concerns that the public may have related to the proposal to construct a new Deepwater Port, sources of relevant data or information, and any suggested analysis methods for inclusion in the EIS.

DATES: Comments and related material must reach the Docket on or before May 7, 2003.

ADDRESSES: Comments may be submitted in several ways. To make sure your comments and related material are not entered more than once in the docket, please submit them by only one of the following means:

(1) By mail to the Docket Management Facility (USCG-2003-14134), U.S. Department of Transportation, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590-0001.

(2) By delivery to Room PL-401 on the Plaza Level of the Nassif Building, 400 Seventh Street, SW., Washington DC between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is (202) 366-9329.

(3) By fax to the Docket Management Facility at (202) 493-2251.

(4) Electronically through the Web site for the Docket Management System at <http://dms.dot.gov>.

The Docket Management Facility maintains the public docket for this notice. Comments will become part of this docket and will be available for inspection or copying in Room PL-401, located on the Plaza Level of the Nassif Building at the above address between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays. You may also view this docket, including this notice and comments, on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: If you have questions about the project, you may contact Commander Mark Prescott, U.S. Coast Guard at (202) 267-0225 or mprescott@comdt.uscg.mil. For questions on viewing or submitting materials to the docket, contact Dorothy Beard, Chief, Dockets, DOT, at (202) 366-5149.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to submit comments and related materials on this notice. Persons submitting comments should include their names and addresses, this notice reference number (USCG-2003-14134), and the reasons for each comment. You may submit your comments and materials by mail, hand delivery, fax, or electronic means to the Docket Management Facility at the address given under **ADDRESSES**. If you choose to submit them by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, and suitable for copying and
