

purchasers or (ii) permit third parties to use but because of the discrete nature of such interconnection facilities have received waivers from the Commission of open access transmission requirements.²⁰ Vantage Wind represents that such waivers remain appropriate because the facts and circumstances upon which they were originally granted have not changed.

24. The Commission also considers a seller's ability to erect other barriers to entry as part of the vertical market power analysis.²¹ The Commission requires a seller to provide a description of its ownership or control of, or affiliation with an entity that owns or controls, intrastate natural gas transportation, storage or distribution facilities; sites for generation capacity development; and physical coal supply sources and ownership of or control over who may access transportation of coal supplies (collectively, inputs to electric power production).²² The Commission also requires sellers to make an affirmative statement that they have not erected barriers to entry into the relevant market and will not erect barriers to entry into the relevant market.²³ The Commission adopted a rebuttable presumption that the ownership or control of, or affiliation with any entity that owns or controls, inputs to electric power production does not allow a seller to raise entry barriers but will allow intervenors to demonstrate otherwise.²⁴

25. With regard to other barriers to entry, Vantage Wind states that it does not, nor does Invenenergy Investment, Polsky Energy or their affiliates, own or control in the United States: (i) Intrastate natural gas transportation, storage or distribution facilities or companies that own or control such facilities, or (ii) coal resources or transportation facilities or companies that own or control such things. Moreover, Vantage Wind states that it and its affiliates do not own or control sites located within the Puget balancing authority area that could be used to impose barriers to market entry by other wholesale power suppliers. Vantage Wind states that it owns or has land

rights to the site for its generation facilities and that other affiliates of Invenenergy Investment own, or may acquire in the future, certain property rights in land for the potential development of generation in places within in the United States including the Puget balancing authority area.

26. Finally, consistent with Order No. 697, Vantage Wind affirmatively states that it and its affiliates have not erected barriers to entry and will not erect barriers to entry in the relevant geographic market.

27. Based on Vantage Wind's representations, we find that Vantage Wind satisfies the Commission's requirements for market-based rate authority regarding vertical market power.

B. Reporting Requirements

28. Consistent with the procedures that the Commission adopted in Order No. 2001, an entity with market-based rates must electronically file an Electric Quarterly Report (EQR) with the Commission containing: (1) A summary of the contractual terms and conditions in every effective service agreement for market-based power sales; and (2) transaction information for effective short-term (less than one year) and long-term (one year or longer) market-based power sales during the most recent calendar quarter.²⁵ Public utilities must file EQRs no later than 30 days after the end of the reporting quarter.²⁶

29. Additionally, Vantage Wind must timely report to the Commission any change in status that would reflect a departure from the characteristics the Commission relied upon in granting market-based rate authority.²⁷

30. Vantage Wind must also file updated market power analyses for all

regions in which it is designated as a Category 2 seller in compliance with the regional reporting schedule adopted in Order No. 697.²⁸ The Commission reserves the right to require an updated market power analysis at any time.²⁹

The Commission orders:

(A) Vantage Wind's updated market power analysis is hereby accepted for filing, as discussed in the body of this order.

(B) Vantage Wind is hereby directed to file an updated market analysis for all regions in which it is designated as a Category 2 seller in compliance with the regional reporting schedule adopted in Order No. 697.

(C) The Secretary is hereby directed to publish a copy of this order in the **Federal Register**.

Issued April 23, 2012.

By the Commission.

Nathaniel J. Davis, Sr.,
Deputy Secretary.
