

DEPARTMENT OF THE INTERIOR**National Park Service****Availability of the Final General Management Plan and Environmental Impact Statement (GMP/EIS) for Chattahoochee River National Recreation Area (CRNRA), GA**

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice.

SUMMARY: Pursuant to 42 U.S.C. 4332(2)(C) of the National Environmental Policy Act of 1969 the National Park Service (NPS) announces the availability of a Final GMP/EIS for the CRNRA, Georgia.

Consistent with NPS laws, regulations, and policies, and the purpose of the CRNRA, the Final GMP/EIS describes Alternative F at the NPS preferred alternative. The preferred alternative incorporates various management prescriptions to ensure protection, access and enjoyment of the park's resources.

The Final GMP/EIS describes the NPS preferred alternative and the potential environmental consequences of implementing the preferred alternative. Impact topics include the cultural, natural, and socioeconomic environments. The Final GMP/EIS contains NPS responses to public comments on the Supplemental Draft GMP/EIS, and copies of agency correspondence and substantive comment letters.

DATES: The NPS will execute a Record of Decision no sooner than 30 days following publication by the Environmental Protection Agency of its Notice of Availability of the Final GMP/EIS in the **Federal Register**.

ADDRESSES: The document will be available for public review and comment online at <http://parkplanning.nps.gov>. A limited number of Compact Disks (CD) and hard copies will be made available at CRNRA headquarters. You may also request a hard copy or CD by contacting the Superintendent, Daniel R. Brown, at CRNRA, 1978 Island Ford Parkway, Sandy Springs, Georgia 30350-3400; telephone 678-538-1200.

SUPPLEMENTARY INFORMATION: The Supplemental Draft GMP/EIS evaluated alternatives to guide the development and future management of the park over the next 20 years. Alternative A (No Action) provides a baseline evaluation of existing resource conditions, visitor use, facilities, and management at the park. Alternative A would continue the current management practices into the

future. There would be only minor changes in resources management, visitor programs, or facilities. Alternative B would minimize development in the park and maximize the opportunity for visitors to experience solitude in natural settings that are relatively insulated from the surrounding urban conditions. Motorized boating would not be appropriate in several zones under Alternative B. Alternative C provides for a management system where visitors would be drawn toward a system of hubs in which administrative, commercial, and interpretive facilities are located, providing visitor information, restrooms, parking lot and roads, trail heads and river access. Motorized boating would not be appropriate in several zones under Alternative C. Alternative D would expand and distribute visitor access throughout the park, including newly acquired parcels, and would provide a wide variety of visitor experiences. Connectivity to existing neighborhoods would be optimized and expanded. Alternative E extracts some features from Alternatives C and D, such as providing for more expanded access. Substantial acreage with less hardened forms of access would be maintained, providing more opportunities for relative quiet and solitude, and motorized boating and fishing would be appropriate throughout the park. The preferred alternative, Alternative F, is similar to Alternative E providing for more expanded access, and allowing for motorized boating and fishing throughout the park, while also maintaining opportunities for relative quiet and solitude. The potential environmental consequences are addressed for each alternative, including impacts to natural resources, cultural resources, transportation, and visitor and community values.

The Supplemental Draft GMP/EIS was available for public and agency review from September 26, 2008, through December 1, 2008. Copies of the document were sent to individuals, agencies, organizations, and local libraries. The document was also made available for public review at the park and on the NPS Planning, Environment, and Public Comment Web site (<http://parkplanning.nps.gov>) in September 2008. Public meetings were held on October 27, 2008, and October 30, 2008. During the review period, the NPS accepted written and oral comments on the document. The NPS carefully reviewed all comments and prepared a report on responses to all substantive comments (Chapter 6). The Final GMP

dated March 2009 sets forth a vision for the development and operation of CRNRA.

Authority: The authority for publishing this notice is 40 CFR 1506.6.

Proposed Information Collection; OMB Control Number 1018-0022; Federal Fish and Wildlife License/Permit Applications and Reports, Migratory Birds

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This

IC is scheduled to expire on November 30, 2010. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by June 7, 2010.

ADDRESSES: Send your comments on the IC to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); or hope_grey@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Hope Grey by mail or e-mail (see ADDRESSES) or by telephone at (703) 358-2482.

SUPPLEMENTARY INFORMATION:

I. Abstract

Our Regional Migratory Bird Permit Offices use information that we collect on permit applications to determine the eligibility of applicants for permits requested in accordance with the criteria in various Federal wildlife conservation laws and international treaties, including:

- (1) Migratory Bird Treaty Act (16 U.S.C. 703 et seq.).
- (2) Lacey Act (16 U.S.C. 3371 et seq.).
- (3) Bald and Golden Eagle Protection Act (16 U.S.C. 668).

Service regulations implementing these statutes and treaties are in Chapter I, Subchapter B of Title 50 Code of Federal Regulations (CFR). These regulations stipulate general and specific requirements that, when met, allow us to issue permits to authorize activities that are otherwise prohibited. This revised IC includes migratory bird permit applications and the reports associated with the permits.

This IC includes four permit application and report forms that are currently approved under OMB Control Number 1018-0136. Once OMB takes action on this IC, we will discontinue OMB Control No. 1018-0136.

- 3-200-71—Eagle Take (Disturb).
- 3-200-72—Eagle Nest Take.

- 3-202-15—Eagle Take Monitoring and Annual Report.

- 3-202-16—Eagle Nest Take Monitoring and Reporting.

In addition, we plan to add three new forms:

- FWS Form 3-200-81 (Special Purpose—Utility) will provide an application specifically tailored for utilities (e.g., power, communications) to request permits to salvage migratory birds on their property and rights-of-way.

- FWS Form 3-200-82 (Eagle Transport Into and Out of the United States) will provide an application for permits under the Bald and Golden Eagle Protection Act to transport dead eagle specimens into and out of the country temporarily for scientific or exhibition purposes, such as for museum exhibits.

- FWS Form 3-202-17 (Special Purpose—Utility Annual Report) will provide a standardized annual report form for Special Purpose—Utility permits.
