

health care system, which is challenged by rising health care costs, increased demand from an aging society, and quality objectives. These data would permit users, such as Harvard Business School, to examine relationships between management practices and financial outcomes using Census Bureau data (e.g., revenues) and relationships with clinical outcomes using external data sources. Additionally, these data would provide hospital administrators and managers information to evaluate their practices in comparison to other hospitals at an aggregate level.

The MOPS-HP content was proposed by external researchers with past experience in surveying hospitals on management practices. Some questions are adapted from the Management and Organizational Practices Survey (MOPS), conducted in the manufacturing sector, allowing for intersectoral comparisons. Content for the MOPS-HP includes performance monitoring, financial and clinical targets, and incentives. The 39 questions are grouped into the following sections: Tenure, Management Practices, Management Training, Management of Team Interactions, Staffing and Allocation of Human Resources, Standardized Clinical Protocols, Documentation of Patients' Medical Records, and Organizational Characteristics.

## II. Method of Collection

The MOPS-HP sample will consist of approximately 4,500 hospital locations for enterprises classified under General Medical and Surgical Hospitals (NAICS 6221) and sampled in the Service Annual Survey (SAS). The survey will be mailed separately from the 2019 SAS and collected electronically through the Census Bureau's Centurion online reporting system. Respondents will be sent an initial letter with instructions detailing how to log into the instrument and report their information. These letters will be addressed to the location's Chief Nursing Officer (CNO). Before mailing, the Census Bureau will attempt to identify the CNO at each location. In instances where the CNO is not identifiable, the letter will be addressed to the hospital's administrative office with attention to the CNO. Collection is scheduled to begin in September 2020 and end in April 2021.
