chris.mclaren@dot.gov, regarding the
 subject matter of this notice.

SUPPLEMENTARY INFORMATION: A final rule establishing requirements for assuring the continued integrity of gas distribution pipelines (DIMP) was published on December 4, 2009, (74 FR 63906). The rule required that operators of gas distribution pipelines develop and implement integrity management plans for their pipeline systems by August 2, 2011. PHMSA and states have conducted a number of inspections of gas distribution pipeline operator integrity management programs. Many more inspections will follow. This public meeting is intended to allow PHMSA, NAPS, and industry representatives to share observations resulting from these initial inspections.

The public meeting is designed to enhance pipeline safety through improved integrity management of natural gas distribution pipeline systems and will consist of presentations and panel discussions provided by a variety of stakeholders. Panel participants will represent industry, PHMSA, and NAPS. Panels will present information on PHMSA and NAPS's expectations of implemented distribution integrity management programs (DIMP) and observations from DIMP Inspections conducted by PHMSA and NAPS. PHMSA and NAPS will promote compliance with regulations by providing an overview of the rule, including expectations of regulatory definitions (such as identification of threats, methodologies for segmentation of assets for evaluation of risk, risk ranking, measures designed to reduce risk, and measuring and monitoring performance) and discussing methodologies that industry is employing to meet the requirements of the rule. Inspection findings from DIMP inspections conducted by PHMSA and state programs and issue areas and areas of concern will be discussed.

Participants of the public meeting will benefit from (1) hearing their peers explain methods of implementation for certain provisions of the rule and associated questions experienced during program development and implementation; (2) listening to PHMSA, NAPS, and industry experience on implementing the specific elements of the rule; (3) discussing rule compliance concerns; developing a clearer understanding of the DIMP rule provisions, and (4) participating in the development of additional guidance if deemed necessary through stakeholder feedback.

Interested persons may obtain more information on DIMP by accessing the DIMP Web site through the PHMSA Pipeline Safety Community page at <http://www.phmsa.dot.gov/pipeline> by selecting "Integrity Management Program (IMP)" and then "Integrity Management—Distribution."

Preliminary Agenda

- Discuss Implementation of the DIMP Regulation and Regulatory Developments affecting Distribution Operators.
- Regulators' (NAPS and PHMSA) Perspective on Implementation of the DIMP Regulation.
- Breakout Sessions to discuss various topics regarding the implementation of distribution IM Programs and meeting the requirements of the DIMP rule.
- Presentations from representatives of the breakout sessions, NAPS, and industry.

Issued in Washington, DC, on June 5, 2012.

Associate Administrator for Pipeline Safety.

Surface Transportation Board

[Docket No. EP 682 (Sub-No. 3)]

2011 Tax Information for Use in the Revenue Shortfall Allocation Method

AGENCY: Surface Transportation Board, DOT.

ACTION: Notice.

SUMMARY: The Board is publishing, and providing the public an opportunity to comment on, the 2011 weighted average state tax rates for each Class I railroad, as calculated by the Association of American Railroads (AAR), for use in the Revenue Shortfall Allocation Method (RSAM).

DATES: Comments are due by July 9, 2012. If any comment opposing AAR's calculation is filed, AAR's reply will be due by July 30, 2012. If no comments are filed by the due date, AAR's calculation of the 2011 weighted average state tax rates will be automatically adopted by the Board, effective July 10, 2012.

ADDRESSES: Comments may be submitted either via the Board's e-filing format or in traditional paper format.

Any person using e-filing should attach a document and otherwise comply with the instructions at the E-FILING link on the Board's Web site at <http://www.stb.dot.gov>. Any person submitting a filing in the traditional paper format should send an original and 10 copies referring to Docket No. EP 682 (Sub-No. 3) to: Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001.

FOR FURTHER INFORMATION CONTACT:

Jonathon Binet, (202) 245-0368.

Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at (800) 877-8339.

SUPPLEMENTARY INFORMATION: The RSAM figure is one of three benchmarks that together are used to determine the reasonableness of a challenged rate under the Board's *Simplified Standards for Rail Rate Cases*, EP 646 (Sub-No. 1) (STB served Sept. 5, 2007),¹ as further revised in *Simplified Standards for Rail Rate Cases—Taxes in Revenue Shortfall Allocation Method*, EP 646 (Sub-No. 2) (STB served Nov. 21, 2008). RSAM is intended to measure the average markup that the railroad would need to collect from all of its "potentially captive traffic" (traffic with a revenue-to-variable-cost ratio above 180%) to earn adequate revenues as measured by the Board under 49 U.S.C. 10704(a)(2) (i.e., earn a return on investment equal to the railroad industry cost of capital). *Simplified Standards—Taxes in RSAM*, slip op. at 1. In *Simplified Standards—Taxes in RSAM*, slip op. at 3, 5, the Board modified its RSAM formula to account for taxes, as the prior formula mistakenly compared pre-tax and after-tax revenues. In that decision, the Board stated that it would institute a separate proceeding in which Class I railroads would be required to submit the annual tax information necessary for the Board's annual RSAM calculation. *Id.* at 5-6.

In *Annual Submission of Tax Information for Use in the Revenue Shortfall Allocation Method*, EP 682 (STB served Feb. 26, 2010), the Board adopted rules to require AAR—a national trade association—to annually calculate and submit to the Board the weighted average state tax rate for each Class I railroad. See 49 CFR 1135.2(a). On May 30, 2012, AAR filed its calculation of the weighted average state tax rates for 2011, listed below for each Class I railroad:
