**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written comments should be submitted on or before June 2, 2025. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email to [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

*Total Annual Burden:* 155,832 hours.

*Total Annual Cost:* No cost.

*Needs and Uses:* This notice and request for comments seeks to revise an existing information collection as it pertains to the Advanced Methods to Target and Eliminate Unlawful Robocalls Sixth Report and Order and Call Authentication Trust Anchor Fifth Report and Order (“Gateway Provider Report and Order”), FCC 22–37. These revisions stem from the Advanced Methods to Target and Eliminate Unlawful Robocalls Eighth Report and Order (“Call Blocking Eighth Report and Order”), FCC 25–15. Unwanted and illegal robocalls have long been the Commission's top source of consumer complaints and one of the Commission's top consumer protection priorities. Foreign-originated robocalls represent a significant portion of illegal robocalls, and gateway providers serve as a critical choke-point for reducing the number of illegal robocalls received by American consumers. In the Gateway Provider Report and Order, the Commission took steps to prevent these foreign-originated illegal robocalls from reaching consumers and to help track these calls back to the source.

Call Blocking Eighth Report and Order, FCC 25–15, paras. 9–14, 47 CFR 64.1200(o).

A voice service provider must block any calls purporting to originate from a number on a reasonable do-not-originate list. A list so limited in scope that it leaves out obvious numbers that could be included with little effort may be deemed unreasonable. The do-not-originate list may include only:

(i) Numbers for which the subscriber to which the number is assigned has requested that calls purporting to

originate from that number be blocked because the number is used for inbound calls only;

(ii) North American Numbering Plan numbers that are not valid;

(iii) Valid North American Numbering Plan Numbers that are not allocated to a provider by the North American Numbering Plan Administrator; and

(iv) Valid North American Numbering Plan numbers that are allocated to a provider by the North American Numbering Plan Administrator, but are unused, so long as the provider blocking the calls is the allocatee of the number and confirms that the number is unused or has obtained verification from the allocatee that the number is unused at the time of blocking.

The modified information collection for which OMB approval is sought comes from the revisions in the Eighth Call Blocking Report and Order (Call Blocking Eighth Report and Order at paras. 9–14) to the requirement originally adopted in the Gateway Provider Report and Order (Gateway Provider Order at paras. 87–91). The categories of numbers that may be included on the reasonable DNO list are the same categories of numbers for which the Commission first authorized blocking in 2017 (Gateway Provider Order at paras. 87–88; Call Blocking Eighth Report and Order at paras. 9–14), and did not change in the Eighth Call Blocking Report and Order. There is no valid reason for a caller to originate a call from these numbers calls purporting to originate from these numbers are highly likely to be illegal.

Federal Communications Commission.

**Total Annual Burden:** 15,175 hours.

**Total Annual Cost:** No cost.

**Needs and Uses:** This notice addresses the paperwork burdens associated with several sets of new and revised rules that the Commission adopted to implement the Martha Wright-Reed Just and Reasonable Communications Act of 2022 (Martha Wright-Reed Act or Act), which expands the Commission’s statutory authority over communications between incarcerated people and the non-incarcerated to include “any audio or video communications service used by inmates . . . regardless of technology used.” The new Act also amends section 2(b) of the Communications Act of 1934, as amended (Communications Act), to make clear that the Commission’s authority extends to intrastate as well as interstate and international communications services used by incarcerated people.

The Act directs the Commission to “promulgate any regulations necessary to implement” it, including the mandate that the Commission establish a “compensation plan” ensuring that all rates and charges for IPCS “are just and reasonable,” not earlier than 18 months and not later than 24 months after the Act’s January 5, 2023 enactment date. Pursuant to that directive, on July 22,

2024, the Commission released the *2024 IPCS Order*, FCC 24–75, 89 FR 77244 (Sept. 20, 2024), which fundamentally reforms the regulation of IPCS in all correctional facilities, regardless of the technology used to deliver these services, and significantly lowers the IPCS rates that incarcerated people and their loved ones will pay.

The *2024 IPCS Order* comprehensively reforms the regulation of the IPCS industry to implement the Martha Wright-Reed Act, addressing six major rulemaking areas that implicate the PRA. This submission seeks OMB review of five of these areas: disability access (new paperwork requirements), alternate pricing plans (new paperwork requirements), inactive accounts (new paperwork requirements), consumer disclosure (revised paperwork requirements), and waiver requests (revised paperwork requirements). These revisions include the addition of new rules addressing disability access, alternate pricing plans, and inactive accounts; and changes to the rules addressing consumer disclosure, annual reporting and certification rules, waiver reporting, rate cap, site commission, and ancillary service charges. Separately, we are seeking comment on paperwork burdens arising from the sixth area—revisions to the annual reporting and certification rules.

#### **New Rules Requiring OMB Review**

47 CFR 64.6040(f) (Accessible formats)—requiring among other information collection requirements, that the information and documentation IPCS providers furnish to current or potential consumers of IPCS is accessible;

47 CFR 64.6130(d) through (f) and (h) through (k) (Protection of consumer funds in inactive accounts)—requiring, among other information requirements, that providers follow certain specified procedures when an IPCS account is deemed inactive, including contacting account holders when an incarcerated person is released or transferred; and

47 CFR 64.6140(c) and (d), (e)(2) through (4), and (f)(2) and (4) (Alternate Pricing Plans)—requiring, among other information collection requirements, that providers choosing to offer alternate pricing plans comply with the rules generally applicable to all IPCS, in addition to specific consumer protection and disclosure rules.

#### **Revised Requirements for Which the Commission Is Seeking OMB Review**

47 CFR 64.6110(a) and (c) through (g) (Consumer Disclosure of Incarcerated People's Communications Services Rates)—requiring, among other

information collection requirements, that providers post on their public websites clear, accurate, and conspicuous information about their IPCS offerings, including information on rates, charges, and associated practices; and

47 CFR 64.6120 (Waiver process)—requiring, among other information collection requirements, that providers follow certain procedures when filing waiver requests, including a showing that the request will not result in unjust and unreasonable IPCS rates and charges.

#### **Previously-Approved Information Collection Requirements**

47 CFR 64.6040(c) (Communications Access for Incarcerated People with Communications Disabilities)—requiring, among other information collection requirements, that providers, as part of their obligation to provide access to Telecommunications Relay Service (TRS), notify the TRS provider(s) when an incarcerated person who has individually registered to use Video Relay Service (VRS), internet Protocol Relay Service (IP Relay), or internet Protocol Captioned Telephone Service (IP CTS) is released from incarceration or transferred to another correctional facility.

47 CFR 64.6060 (Annual Reporting and Certification Requirements)—requiring IPCS providers, among other information collection requirements, to file certain pricing and related data and information annually to promote transparency and heighten IPCS providers' accountability. In 2015, the Commission released the Second Report and Order and Third Notice of Further Proposed Rulemaking, WC Docket No. 12–375, 30 FCC Rcd 12763, 80 FR 79135 (Dec. 18, 2015) (2015 ICS Order), in which it required that inmate calling services (ICS) providers file Annual Reports providing data and other information on their ICS operations, as well as Annual Certifications that the reported information is complete and accurate and complies with the Commission's ICS rules. Pursuant to the authority delegated them by the Commission, WCB and the Consumer and Governmental Affairs Bureau (collectively, the Bureaus) released an Order on January 8, 2025, WC Docket Nos. 23–62, 12–375, DA 25–23 (rel. Jan. 8, 2025) (*2025 Annual Reports Order*), <https://www.fcc.gov/document/2025-ipc-annual-reports-order>, revising the instructions and reporting templates for the Annual Reports, as well as the associated certification form. The revisions reflect previous proposals by the Bureaus, including those regarding

access to IPCS and TRS by persons with communication disabilities, as well as refinements and modifications made in response to comments in support of more streamlined, and therefore less burdensome, overall reporting obligations. The revisions also reflect the Commission's expanded authority under the Martha Wright-Reed Act, including authority over video IPCS and video-only IPCS providers.

In this submission, we are seeking OMB review of the paperwork burdens arising from the new rules addressing disability access, alternate pricing plans and inactive accounts and from the revisions to the consumer disclosure rules and waiver reporting requirements. We are also seeking renewal of the previously-approved paperwork requirements for communications access for incarcerated people with communication disabilities in section 64.6040(c) of the Commission's rules, as well as renewal of the previously approved paperwork requirements for the annual reporting and certification rule.

We will continue to address the paperwork burdens associated with the revisions to the annual reporting and certification rules separately.

Federal Communications Commission.
