Scott Johnson, Railroad Safety Specialist, FRA Signal, Train Control, and Crossings Division, telephone: 406-210-3608, email: [scott.j.johnson@dot.gov](mailto:scott.j.johnson@dot.gov).

**SUPPLEMENTARY INFORMATION:** Under part 235 of title 49 Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by letter dated March 18, 2025, CSXT petitioned FRA seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2025-0045.

Specifically, CSXT requests to retire the Rigby West signal location at milepost (MP) PLD-15.10 in Scarborough, Maine, on its Portland Subdivision. CSXT additionally requests approval to retire track control operations and extend other than main track limits from MP PLD-15.10 to control point (CP) Cooks at MP PLD-16.30.

In support of the request, CSXT explains that, with the Rigby West signal in service, whenever train crews need to pull a train west out of Rigby Yard for headroom, they must contact the dispatcher and request the westbound signal be cleared. Therefore, retiring the Rigby West signal would reduce these radio communications, which would allow both dispatchers and train crews "to focus on critical operational and safety-related communications in and out of Rigby Yard." Radio communications would then "remain focused on essential dispatching and operational duties."

The request to extend other than main track limits would create more track space for switching/headroom operations.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](https://www.regulations.gov).

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by June 20, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

#### Notice of Petition for Extension of Waiver of Compliance

**AGENCY:** Federal Railroad Administration (FRA), Department of Transportation (DOT).

**SUMMARY:** This document provides the public notice that the Southeastern Pennsylvania Transportation Authority (SEPTA) petitioned FRA to extend relief

related to SEPTA's participation in FRA's Confidential Close Call Reporting System (C<sup>3</sup>RS) Program.

**FOR FURTHER INFORMATION CONTACT:** Ronald O. Simpson, Railroad Safety Specialist, FRA Safety Partnerships Division, telephone: 314-202-2971, email: [ronald.o.simpson@dot.gov](mailto:ronald.o.simpson@dot.gov).

**SUPPLEMENTARY INFORMATION:** Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter received on March 13, 2025, SEPTA petitioned FRA for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 240 (Qualification and Certification of Locomotive Engineers) and part 242 (Qualification and Certification of Conductors). FRA assigned the petition Docket Number FRA-2015-0084.

Specifically, SEPTA requests an extension of the relief required to continue its participation in FRA's C<sup>3</sup>RS Program. SEPTA seeks to continue shielding reporting employees from mandatory punitive sanctions that would otherwise arise as provided in §§ 240.117(e)(1) through (4); 240.305(a)(1) through (4) and (a)(6); 240.307; 242.403(b), (c), (e)(1) through (4), (e)(6) through (11), (f)(1) and (2); and 242.407. The C<sup>3</sup>RS Program encourages certified operating crew members to report close calls and protects the employees and the railroad from discipline or sanctions arising from the incidents reported per the C<sup>3</sup>RS Implementing Memorandum of Understanding (IMOU). The IMOU

includes the Brotherhood of Locomotive Engineers and Trainmen and the Transportation Division of SMART-TD.

In support of its request, SEPTA states that it has made many safety improvements since the waiver was last extended, including reviewing 183 close call submissions; developing a "Shop Movement Job Brief Form," which has reduced incidents in shop movements; and beginning a campaign to ensure equipment has proper inspection paperwork and testing before leaving initial terminals.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](https://www.regulations.gov).

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by June 20, 2025, will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.
