Because we have not completed the elements in the critical habitat process identified above (e.g., compiled and analyzed all new biological information on the species; determined what areas might require "special management considerations or protections"; etc.) we do not know what the preferred alternative (the proposed action) or other alternatives might entail. Once identified, the alternatives will be carried forward into detailed analyses pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 432 *et seq.*).

The Service is the lead Federal agency for compliance with NEPA for this action. The DEIS will incorporate public concerns in the analysis of impacts associated with the proposed action and associated project alternatives. The DEIS will be sent out for a minimum 45-day public review period, during which time comments will be solicited on the adequacy of the document. The Final EIS will address the comments received on the DEIS during public review, and will be furnished to all who commented on the DEIS, and made available to anyone who requests a copy.

This notice is provided pursuant to regulations for implementing the National Environmental Policy Act of 1969 (40 CFR 1506.6).
