

opportunities and operational activities related to SGM health.

The FY 2021–2025 strategic plan includes the following four scientific themes and research opportunities:

1. Clinical research
2. Social and behavioral research
3. Research in chronic diseases and comorbidities
4. Methods and measurement research

Overarching considerations for SGM research extend to all scientific research goal areas to help foster a deeper understanding of SGM health disparities. Key examples of these overarching considerations for SGM research include intersectionality, life situations, aging, SGM subpopulations, and relevant research frameworks.

The FY 2021–2025 strategic plan includes the following four operational goals:

1. Advance rigorous research on the health of SGM populations in both the extramural and intramural research communities;
2. Expand SGM health research by fostering partnerships and collaborations with a strategic array of internal and external stakeholders;
3. Foster a highly skilled and diverse workforce in SGM health research; and
4. Encourage data collection related to SGM populations in research and the biomedical research workforce.

The populations considered under the SGM umbrella term are inclusive and capture all individuals and populations who do not self-identify with binary constructs of sexual orientation, gender, and/or sex. Examples of such populations may include intersex individuals or individuals with differences or disorders of sex development (DSD), Two-Spirit people, transgender and gender-expansive people, bisexual people, and individuals whose gender identity falls within the full spectrum of gender.

To advance NIH priorities in SGM health research, SGMRO requests input from SGM health researchers and related communities on potential research opportunities related to the goals of the FY 2021–2025 strategic plan.

Responses to this RFI are voluntary. Do not include any proprietary, classified, confidential, trade secret, or sensitive information in your response. The responses will be reviewed by NIH staff, and individual feedback will not be provided to any responder. The Government will use the information submitted in response to this RFI at its discretion. The Government reserves the right to use any submitted information on public NIH websites; in reports; in summaries of the state of the science; in any possible resultant solicitation(s),

grant(s), or cooperative agreement(s); or in the development of future funding opportunity announcements.

This RFI is for information and planning purposes only and should not be construed as a solicitation for applications or proposals, or as an obligation in any way on the part of the United States Federal Government, NIH, or individual NIH Institutes, Centers, and Offices to provide support for any ideas identified in response to it. The federal government will not pay for the preparation of any information submitted or for the Government's use of such information.

No basis for claims against the U.S. Government shall arise as a result of a response to this RFI or from the Government's use of such information. Additionally, the Government cannot guarantee the confidentiality of the information provided.

Dated: September 24, 2021.

Lawrence A. Tabak,

Principal Deputy Director, National Institutes of Health.

Clinical Center; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the Board of Scientific Counselors of the NIH Clinical Center. The meeting will be closed to the public as indicated below in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended for the review, discussion, and evaluation of individual grant applications conducted by the CLINICAL CENTER, including consideration of personnel qualifications and performance, and the competence of individual investigators, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Board of Scientific Counselors of the NIH Clinical Center.

Date: October 18, 2021.

Time: 10:00 a.m. to 5:30 p.m.

Agenda: To review and evaluate Department of Laboratory Medicine and interviews.

Place: Clinical Center, 10 Center Drive, Bethesda, MD 20892 (Virtual Meeting).

Date: October 19, 2021.

Time: 10:00 a.m. to 12:30 p.m.

Agenda: To review and evaluate Department of Laboratory Medicine and interviews.

Place: Clinical Center, 10 Center Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Ronald Neumann, MD, Senior Investigation, Clinical Center, National Institutes of Health, 10 Center Drive, Bethesda, MD 20892, 301–496–6455, rneumann@cc.nih.gov.

Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance onto the NIH campus. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Dated: September 24, 2021.

Patricia B. Hansberger,

Supervisory Program Analyst, Office of Federal Advisory Committee Policy.

U.S. Customs and Border Protection

Mexico Textile and Apparel Imports Approved for the Electronic Certification System (eCERT)

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces that the certification requirement for certain imports of textile and apparel goods from the United Mexican States (Mexico) that are eligible for preferential tariff treatment under a tariff preference level (TPL) will be accomplished through the Electronic Certification System (eCERT). Specified quantities of certain textile and apparel imports from Mexico that are eligible for preferential tariff treatment under a TPL must have a valid certificate of eligibility with a corresponding eCERT transmission in order for an importer to claim the preferential duty rate. As the Agreement Between the United States of America, the United Mexican States and Canada
